Quality education provides students the knowledge, skills, and confidence to reach their full potential. Children who are blessed with education of the highest quality, qualify as better human beings and ensure that the message of universal citizenship remains strong. A few committed persons pledged their efforts and wisdom to set up Children Welfare Centre Trust with this very intention. The institution offers advance education programs within the ever expanding geographical and cosmopolitan extent of the city. Registered under the Public Trust Act, 1950 it caters to the holistic development of every student and strives to ensure that the objectives of education percolate into every strata of society.

Children Welfare Centre, currently in its 39th year of existence, continues its sustained mission by making laudable inroads in the arena of education.

The progress and success of its students and alumni is testimony to the tremendous efforts of the founder members and teachers in preparing them for lifelong learning with a positive approach. The relationship forged with the parents and the society at large remains the edifice for the progress made by the institution over the years.

Located in the bustling suburban locality of Andheri, Children Welfare Centre is well connected with the rest of the city. The institution is well fenced and provides a safe and tranquil ambience which is most conducive for the purpose of learning. It has a fully functional Pre-Primary school which uses a progressive education model. The children have access to a definite path for academic progression from the primary and secondary school to the junior and degree college. The Centre admits students who wish to pursue graduation in streams such as Commerce, Management, Mass Media, Accounting and Finance. Recognizing the need for training prospective teachers to impart quality education, the Trust set up the Teacher's Training Centre under the B.Ed. program in Andheri (West) in 2009. It also set up the College of Law at Malad (West) in the same year.

The institution boasts of infrastructure to suit contemporary teaching and learning needs. Well equipped with an in-house science laboratory, the Centre also has computer labs, audio visual room, library, as well as recreational facilities. The concern of the management to provide the best facilities is evident from the clean and hygienically maintained rest rooms and canteen. More than 300 trained and proficient teachers contribute immensely to academic and personal development of students through mentoring and coaching. Each of them is equally responsible for building the values of honesty, respect and diligence in the students.

Children Welfare Centre has a proven track record that leads the present objectives towards better opportunities and prospects. It has been aptly rewarded for its performance. It was named the Best School in K-West Ward by the Education Department of Municipal Corporation of Greater Mumbai in the past. Mr. Ajay Kaul, the Honorary Principal of the institution, was the recipient of the State Award for the Best Teacher in the year 2002-2003.

Children Welfare Centre is an ideal platform for the awe-inspiring force of more than 4000 registered students to spread their wings. With experience and better resources at hand, the institution has started the M.Com course at Clara's College of Commerce, Versova, Andheri (West) and has commenced Junior College in Arts and Commerce streams at Malad (West). Also a school affiliated to CBSE Board is running in the same institution. The moment of pride for the Trust is the commencement of an IB School at, off Yari Road, Versova.

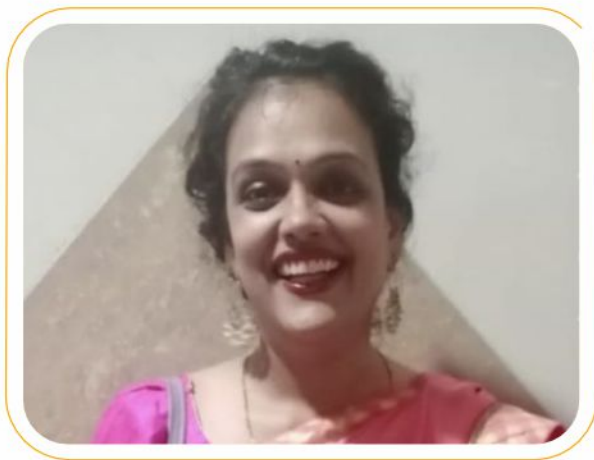

The moment of pride for the Trust is the commencement of LLM Course at Malad (W).

The trust also received permission to start new college under the aegis of Children Welfare Centre Clara's College of Arts , Science & Commerce,Valnai Village,Marve Road ,Orlem Bavadi stop,Malad (W),Mumbai-400064 from the academic year 2022-2023.

OUR ENDEARING VOYAGE SO FAR

- 1981** Children Welfare Centre(CWC) School begins to function from one rented room in Versova village with a batch of 30 students.
- 1985** The School develops into a full-fledged Primary School and receives recognition from the Municipal Corporation of Greater Mumbai.
- 1992** The first batch of S.S.C students appeared for the Secondary School Certificate examination. The year also witnessed the initiation of a Junior College in the Commerce Faculty.
- 1994** The school was adjudged as the Best school in the K-West ward by the M.C.G.M.
- 1999** A full- fledged Degree College namely Clara's College of Commerce was established in the memory of Late Smt. Clara Kaul.
- 2002** 100% H.S.C Results
- 2003** Best Teacher Award presented to Principal Ajay Kaul by the Govt. of Maharashtra.
- 2006** Children Welfare Centre completes its Silver Jubilee. The CWC School and Clara's College of Commerce has more than 4000 students on its rolls.
- 2009** Clara's College of Education (Teachers' Training College) is started with an objective of contributing the best teachers to the society.
Children Welfare Centre Law College commences at Malad (West).
- 2010** His Excellency S. C. Jamir the Governor of Maharashtra honours Shri Ajay Kaul with the 'Outstanding School Principal' Award.
- 2011** School adjudged as an "A" Grade School by the S.S.C. Board.
100% B.Ed. Results
- 2012** 100% SSC. Results
- 2013** Students represented Maharashtra State in Tchouk Ball tournament.
- 2014** Science Teaching Aid Project selected for State Level Competition at Ratnagiri.
Principal Ajay Kaul appointed as member of the S.S.C/H.S.C Divisional Board by the Govt. of Maharashtra.
- 2015** First Batch of B.L.S students secured 100% Results at the University Examination.
- 2016** Hosted Zonal Science Exhibition in Coordination with Education Dept. West Zone in which 500 schools participated.
Versova Gaurav Award Presented to Principal Ajay Kaul by Shri Devendra Phadnavis- Hon'ble Chief Minister Maharashtra State for his contribution in the field of education.
- 2017** Commencement of Jr. College of Arts & Commerce at Malad(West)
M.Com (Advanced Accountancy) course introduced at Clara's College of Commerce, Yari Road.
100% result in Elementary & Intermediate Drawing Grade Examinations, Conducted by Govt.of Maharashtra.
100% result of B.Ed (Second Year)
100% HSC. Results
- 2018** Surya Raja Devendra of T.Y.B.Com represented Indian Kickboxing at Asia level and won Bronze medal at Ata, Kyrgyzstan. He will be representing India in World Championship to be held in New York in March, 2019.
- 2019** Project in Population Education bagged the 1st prize at Zonal level science exhibition. The exhibit was selected for the state level.
- 2020** Hosted State Level Kabaddi competition wherein players from 8 different cities of Maharashtra participated. It was organised by District Sports Office under the Directorate Sports Office under the Directorate of Sports, Ministry of Youth Affairs and Sports.
- 2021** NCSC science project was selected at state level.
Governor of Maharashtra His Excellency Hon'ble Shri.Bhagat Singh Koshyari felicitated Shri.Ajay Kaul for his contribution in social field.
Granted permission from Govt. Of Maharashtra to start Arts ,Science & Commerce degree college at CWC Malad.
- 2022** Children Welfare Centre high school secures 100% result in Govt.of Maharashtra Elementary Drawing Examination.

When dedicated and intellectual minds come together, they create masterpieces. Children Welfare Centre's cerebral power has always executed some of the massive projects seamlessly under efficient and fervent leadership – be it adapting to novel pedagogy or integrating learning avenues and goals to foster the minds of the young leaders of tomorrow. Across various streams, we have always demonstrated immense dedication towards the dissemination of knowledge to students and endeavoured to achieve excellence in education through transformation.

The pursuit of transformation and excellence is a path driven by meticulous and well-thought planning by the entire team from top to bottom. The year 2022 dealt with the post-pandemic challenges which left most of us in a vulnerable state. Breaking through the doors after the passing of uncertain times wasn't easy. As a zealous institution, we led a plethora of holistic learning interventions for our students and teachers alike. Despite several difficulties, every intervention was embraced and made successfully with great enthusiasm. Such a tale of inspiration is worth a read. As a head-strong team of the editorial committee, we have put together piece by piece, this beautiful and lively year-long voyage of cherishing and triumphant moments for you.

We thank our trustee members and our principal for their guidance and suggestions, and also each member of the editorial committee who has contributed to the crafting of this tale.

HAPPY READING!

The Editorial Board

Mrs. Rabia Gupta

Guidance: Mr. Prashant Kashid

We thank all the teachers, the computer & office staff for their help and co-operation.

The world is a stage and all of us are orators, performers and spectators at the same time. The philosophy of the greatest dramatist of his time has an evident truth of life that keeps unfurling every second of our lives. Time has been the greatest witness of human evolution and revolutions across the world. The metamorphosed phases have shaped humanity into what it is today. Needless to say, education has had its own evolutionary and revolutionary journey too over the eons. Its pivotal role and contribution to the making of the world's terrific inventors, discoverers, industrialists, economists and many more is something that cannot be thanked enough for in a few scribbles.

With every passing decade, there's a wave of transformation that hits our systems at every level. The governing factors could be as modernized as technological evolution or something as terrorizing as the pandemic. It keeps hitting the system and unless we are prepared to tackle, adapt, adopt and revolutionize, we shall be on the brink of perish. And when we say adapt and adopt, it requires a 360-degree approach. And for this, our gen-next should be equipped with tech-knowledge. The pandemic has led us to a world where technology is no longer a matter of choice but a necessity, a must-know tool to communicate, operate and flourish. And needless to say, it keeps updating constantly.

As a progressive institute, our pursuits are linked to our purpose of education, which is preparing the forthcoming generation to become enablers of

a progressive tomorrow. For decades, technological adoption has been a gradual and consistent upgrade in our institution. We have furthered our vision to make our institution a hub for IT courses. Our early endeavors were focused on getting our force of teachers and other members ready for IT enablement, we are embracing and integrating a wide range of IT courses and Skill Development programs in our curriculum to prepare the gen-next to be ready for the corporate world.

For more than three and a half decades, we have ceaselessly fostered the young minds, empowering them with theories and pragmatic experiences while inspiring them to be abreast of markets by providing them diverse avenues of learning and transformation. We believe that a generation is as strong as its mind and knowledge. The power of knowledge can only be employed wisely by a sane mind. And this is one of the most crucial goals we integrated in our mission – building strong & knowledgeable minds. As a responsible entity of the education fraternity, we incorporate our unified strategies to bring mental health to mainstream education, while working unparallelly on shaping the futures of tomorrow to be ready to fly as corporate leaders and entrepreneurs across the world. And we pursue this with great success with the support of a strong convoy of veteran teachers and operations team, our associates and allies in the industry.

Success is more than just a mile-away destination – it's a voyage of continuous efforts of ardent people coming together and working timelessly and tirelessly towards bringing a change. As much as what we do is important, so it's the contribution from society. Let's pledge to become enablers of positive influences and positive education to our young generation.

Last but not least, let's commemorate our every success, and every win, learn from every intervention and empower ourselves to move ahead in the direction of light. Education keeps guiding us towards that light.

Thank you all for making our every endeavor and mission a great success.

**ACTIVITIES
OF THE
INSTITUTION
AT A GLANCE**

Jose Ortega y Gasset – a Spanish Philosopher once said, “The real magic wand is the child’s own mind”. A wand which is yet to discover its true potential. It gathers the influence from its teachers and mentors at an early tender age and is shaped into the marvel that it is. The surrounding milieu plays a vital role in this process of shaping. At Children Welfare Centre, we comprehend the length and breadth of such colossal accountability of nurturing the evolving minds of the budding munchkins. Our teachers put their expertise to work and planned the entire year for our children with interactive learning engagements.

The year commenced in June with an effective rendezvous with the parents of the Junior K.G. children who were briefed on the rules and regulations of the school during an **Orientation Program**. Post this, our young tots excitedly embarked on the frolicsome voyage of learning. The foremost month focused on the theme of nutrition & health. Our Junior K.G. children rejoiced in the drama on **What Should I Eat** while learning the benefits of healthy food. Later in the concluding week, the Senior K.G. students joined them in the celebration of the **International Yoga Day** and learnt several yogasanas.

Arrived next the Jubilant July and our young buds

from Senior K.G. went on an exploration spree. While the **Memory Game** allowed to train their recall skills through object identifying bustle, **Feed the Shark** opened doors to sharpening their coordination and aiming skills. In yet another thrilling engagement of **Season Wheel** offered them a great opportunity to learn about various seasons in our country. The joyful journey continued with their hilarious and quite expressive acting while playing **Dumb Charades**. Our Junior

K.G. tots also hopped onto the fun-wagon and enhanced their vocabulary skills through the **Word Family** game. So much excitement in the air became irresistible and soon drew parents to join a workshop on **Phonics**. Our phonic expert Ms. Disha Suvarna enriched their minds on phonetic sounds through an interesting interaction with them.

Awesome August opened its account on a lyrical note. The **Rhyme Time** bustle engaged our Junior K.G. kids in scripting and reciting the poems of their choice. The learning curve bent towards geometry and with an interesting **Identify the Shapes (Circle)** activity, enabled our Senior K.G. children to learn about circular shapes. Going further, they learnt to identify different birds and animals through the **Sort and Classify Birds and**

PRE-PRIMARY

Animals game. Soon it was the adieu time for the month, so it decided to leave a musical note. Our pre-primary children sang their hearts out in the **Face the Music** bustle and mesmerized everyone with their awesomeness.

The Sizzling September had a rather creative story to narrate. With its ingenious swag, it took our Junior K.G. students on a **Scavenger Hunt**, wherein they joyfully got busy into making paper bags from old newspapers. And while they were at it, our Senior K.G. kids decided to revere the works of our community helpers. A program on **Community Helper – Where Do They Work** offered them a dais to speak about their contribution to the society. Soon after, they quite enthusiastically showcased their reciting skills in **Hindi Poem Recitation Competition** and left everyone in awe.

The Notorious November chose to throw some magic in the air. And **Abra Ka Dabra Gilli Gilli Choo Magic Show** became its accelerator. The awestruck wits were later put to work in the bustle **Find Me Out** - a game where they learnt to identify different grains and their uses. The young grey cells continued with the fun-filled exercise with **Brain**

Train game which worked on their spot oration skills and boosted their confidence as well. The tale continued through the delightful December with Junior K.G. tots enhancing their counting skills; the activity **Building Numbers** with its innovative and creative approach, served the purpose right. Later in the month, Senior K.G. students grabbed the chance to develop their cognitive and intellectual skills through **Calendar Reading** game.

The judicious January brought a wagon of play, practice and learn bustles and infused more excitement in the milieu. Our Junior K.G. kids practice their eye-hand coordination in **Aim the Nose** game and had tremendous fun aiming for the nose of the joker. Merriment filled their hearts later when the entertainment of the **Puppet Show** with a story drove their budding minds to an imaginative world. Soon after, they went on to indulge in **Notice the Seasons** activity which enabled them to learn about different seasons and things used during those times. The final stroke was that scribbling. The **Handwriting Competition** saw our tots having fun giving the touch of perfection to their scribbles.

In conclusion, our pre-primary kids and teachers had an accomplishing time this year.

Primary Education provides the bedrock for the development of our children. It marks the distinctive beginning of formal education for them, serving as the pedestal for learning foundational skills for life. As conscientious educationists, we comprehend the significance of the great responsibility we share with society, the responsibility of nurturing budding minds and steering them in the direction of positivity and success. At Children Welfare Centre, we focus on creating an environment that fuels creativity and curiosity for learning. Our methodologies are integrated with blended & experiential learning techniques to encourage effective learning.

The year was planned with fun-filled learning activities with a strategy to actively engage our young students in the process. It inaugurated in July with the celebrations of the **Environment Week** which was organized with the objectives of

creating awareness about environmental cleanliness and hygiene while studying parts of the plants and also learn about the waste reduction and recycling. The commemoration began with Std I – IV students sowing pulse seeds in a pot at home which they displayed joyously in the following days. Later they were also enlightened on environmental issues through a film screening. Among many other bustles, the **Paper Bag Making, Poster Making and Slogan Writing** were enjoyed the most by them. The opening month also grabbed a chance for them to flaunt their views in **Just a Minute** program. Organized with the aim of building their communication and visualization skills, it saw quite an enthusiastic participation from the students of Std. I & II. Para-verbal is one of the crucial aspects of communication. Comprehending the importance of tonality of speech, the **Rhyme Time Contest and Speak Well Contest** were organized which motivated our young munchkins to partake in them and exhibit their skills.

Came August with a bang of more learning. It was time to inculcate **Healthy Habits** in our young buds. An interactive session on the subject engaged our students from Std. I & II, who gained insights into types of seasons and the significance of developing healthy habits. The month progressed to

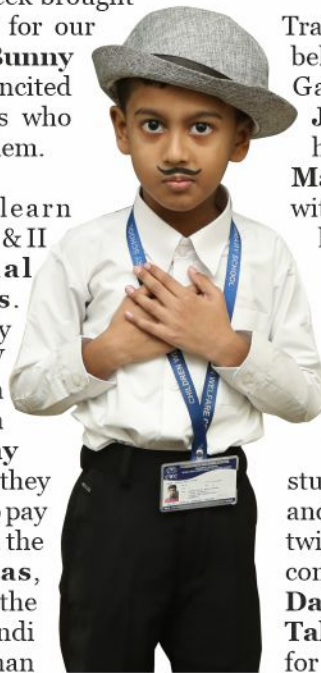

rendezvous with **Independence Day**. The school campus came alive decked with theme of

patriotism. During the celebrations, teachers and students paid their homage to the tricolor and to our great freedom fighters. The last week brought more opportunities of fun-n-learn for our Std. I & II students. The **Find the Bunny** and **Matching Game** activities incited the young minds' creative abilities who showed their keen participation in them.

The joyful journey of fun-n-learn continued in September when Std. I & II students learnt about **Animal Shelters and Their Sounds**. Parallely, the **Noun Town** activity drew engagement from Std. III & IV students. And that's not it. The fun spree repeated yet again later with **World of Animals** and **Yummy Parts of Animals** activities which they very well rejoiced. It was then time to pay tribute to our national language. On the commemoration of **Hindi Divas**, students from Std. I – IV took up the task of spreading the message – 'Hindi Humari Shaan Hai, Desh ka Abhiman Hai'. And while doing so, they demonstrated their prowess in **Knowledge Quiz Competition** – Kaun Banega Pustak Mani. The sentiment of tribute continued to recognize the importance of education in our nation. The

observance of the **International Literacy Day** earlier in the month served the purpose.

Trailed October with a reminiscence of our beloved father of the nation – Mahatma Gandhi. On the occasion of **Gandhi Jayanti**, students paid their homage to him through various avenues viz. **Craft-O-Mania**, wherein they made Gandhi Caps with craft and newspapers. On the other hand, the three wise monkeys created based on the teaching of Gandhiji were simply outstanding. Walking down the alley, they actively participated in the celebrations of **National Education Day** in honor of the great Maulana Abul Kalam Azad organized in the month of November. The humble gala witness our students sharing some of the great stories and contributions of the gem of India. The twilight tale was written with yet another commemoration of **National Integration Day** with the theme of **The Smart Kid Talent Show and Rock the Dance Floor** for Std. I & II and Std. III & IV students respectively. The event beheld the zealous participation from all. The amazing performances of these young buds served as superb closing memories for the year.

Filled with exuberance and joy, the year was indeed a great success!

**Education must not simply teach work –
it must teach Life.**

American Sociologist & Historian, W. E. B. Du Bois's words delineate the very essence & purpose of education. Secondary education is the furthered learning voyage which expands the horizon of exploration and reasoning. At CWC, we endeavour to create stimulating learning avenues for our students and engage their minds for holistic development. The year-long plan was strategically designed with a blend of discovery and experiential learning methods.

Followed July with a fervour to instill some leadership qualities in our students. In an **Investiture Ceremony** celebration, the elected members of the Student Council received a mandate and guidance on their accountability from the management. The ceremony was followed by the felicitation of the PTA members. Then arrived **World Environment Day** and our students got themselves involved in the week-long celebration for the same. With the purpose of creating

June marked the commencement of the academic year and filled the milieu with loads of excitement. Our secondary students took a plunge into the new waters and engaged their wits in **Science Riddles**. Through a series of videos, they gained knowledge of important inventions and their impact on the world. They also shared their views on the subject through intellectual discussions. The scholarly conversations were soon trailed by the celebration of **International Yoga Day**, wherein, students learnt about the mind-body-soul connection and also performed various asanas. Thereafter, the concluding week brought an opportunity for rendezvous for everyone. A **Parents-Teachers Association Meet** was attended by the majority of the parents who were briefed on the rules and regulations of the school.

awareness amongst the young generations about the duties towards the environment, various programs were organized including Short Skits, Slogan Writing, Planting a Sapling, etc. Our secondary students enthusiastically partook in the activities and showered their compassion on nature. They also demonstrated their creative skills in the Poster Making Competition held on **World**

Population Day later during the month. It was then time to enrich their literary skills and **Literary Corner** was the perfect avenue for that. The programs like Verbal Pyramid & Imaginative Writing saw amazing participation from them. While Std V – VII students researched information on recent achievements in sports, medicine, technology, etc., the students from Std. VIII & X poured their hearts into the interesting compositions on the given topics.

Soon the learning spree was taken over by the patriotic zeal in August. The grand celebrations of **Independence Day** witnessed our students express their reverence for the nation through their inspiring speeches and patriotic songs. The subsequent month resumed the trail of learning with a **Workshop on Effective Communication** wherein, the secondary students played an interactive guessing game with words. As the month progressed, they got yet another opportunity to showcase their witty skills.

So, they decided to dive into the research activity. Std. V – VII students put together beautiful collages of pictures of animals while Std. VIII & X students grilled their grey cells in solving the crossword **Puzzle** based on science lessons. September also offered a chance to commemorate **International Literacy Day** in a distinctive way. Our secondary students picked up significant moral-based stories and narrated them in their respective classes.

With the advent of October, our secondary students paid homage to the father of the nation – Mahatma Gandhi on the occasion of the 153rd **Gandhi Jayanti**. Alongside performing a well-thought skit based on Gandhiji's ideologies, they also put together a Life-Map on his life and work. The tribute saga continued with the celebrations of the **National Education Day** on the birth anniversary of the great freedom fighter and educationist – Maulana Abdul Kalam Azad. Students read short stories and quotes on

SECONDARY //

Maulana's contribution to freedom fighting. Soon after, they were seen dancing to the tunes of our traditional folk songs in the competitions held on **National Integration Day**. Later, they quite effectively presented their views in a debate competition and wooed the audience. The month closed with, yet another mesmerizing event infused with patriotism on the **Samvidhan Diwas** or the **Constitution Day** of India. The day was cherished by our students and teachers alike, which began with a preamble and concluded with an explanation, history & objectives of the same.

Came December and brought with it a chance for our students for mind-muscle training. The **Math Puzzle** teased their wits and offered a perfect way of improving their grey cells' function. Soon after, they got busy participating in the **Annual Sports Day** celebrations. The event embraced the enthusiastic involvement of every section wherein students rejoiced in showing their athletic performances in tailored, fun-filled tracks and other field activities. The celebrations were sealed with the winners receiving medals, certifications and trophies for their outstanding performances. At the twilight phase, trailed January with a sentiment of reverence for **Savitri Bai Phule** – India's First Lady Teacher, Educationist, Social Reformer and Poet who was also the first to open a school for girls. The entire institution came together in commemoration of her birthday. Students learnt about her life, struggles and her achievements through a short movie, which left each's heart filled with gratitude for the strong persona that she was.

All-in-all, the students and teachers had a fantabulous journey of exploring and learning all throughout – what an accomplishing year it was!

Preserve & cherish mother nature, it's our home,
which gives abundantly & unconditionally.

With time, nature has evolved and blessed mankind with its infinite resources. The very success of revolutionization in medicine, machinery and many other fields is the offering of our copious nature. On one hand, it provides a foundation for our exponential economic growth, on the other, it nourishes our soul with its serenity and bountiful lushness. In every walk with

nature, we receive more than we seek. As educationists, we shoulder a great responsibility to help our young generations build a strong connection with nature and empower them to not only co-exist but also foster it the way it nurtures us. Here at Blossom Nature Club, we pursue this mission with great passion, through various awareness programs and live rendezvous with nature all throughout the year.

‘Health is Wealth’ – this basic mantra is so commonly used in verbal communicate but often missed out in practice. Holistic health always centers towards a balanced mind & body. The ancient practice of Yoga enables us to achieve this goal. Revering the importance & benefits of such a practice, we encouraged our students to actively participate in the celebrations of **Yoga Day**. This opening event organized in the month of June saw them keenly learning mind-body coordination through yogasanas and meditation which were guided by our yoga instructor. Aligning with the goal of health & fitness, a **Guest Lecture on Nutrition And Diet** by Ms. Heena Bhimani organized just before the concluding quarter sensitized our students on the importance of eating healthy and strengthening the immune system.

Every celebration centralizes the spirit of appreciation. The **Vanmahotsav Week** was the foremost event organized in the month of July. With the purpose of appreciating mother nature, we lined up several programs for students, who

enthusiastically participated in them. The **Tree Plantation Drive** was at the core of this carnival wherein a variety of saplings were planted while the students excitedly put their potted plants on the display. Later, they were also made aware of the importance of trees through a **Documentary**. Further, the festivities were heightened by their wonderful deliverance in the **Slogan Writing Competition** on the **Harmful Effects of Plastic on the Environment** and a **Short Skit** on **Save**

among most product packaging materials, its overuse and abuse have led to massive levels of pollution in the air and water. In order to sensitize our students on this pressing issue and direct them towards the means of reducing plastic waste, a series of programs were organized throughout the year. July leveraged the opportunity with an **Awareness Program on Using Paper & Cloth Bags**, where students created beautiful paper & cloth bags and distributed them to the

Trees, Save Environment. The subsequent month opened its doors to empower students to have a holistic approach to protecting & nurturing the environment. This means co-existing and caring for birds and animals weigh as much as reducing the polluting factors. Inspired by a beautiful thought – 'He who feeds a hungry animal, feeds his own soul', our students from 7th & 8th standard crafted lovely **Bird Feeders** from the waste material.

Plastic has been one of the biggest threats to our environment for decades. While it found its place

local shops. Under the **NCSC (National Children, Science Congress) Research Project**, our 6th-standard students were briefed on a similar topic of the use of biodegradable, eco-friendly bags. They relished the opportunity of making such bags from leaves and paper in our school lab and brought immense pride to us by winning the third prize in the NCSC competition.

The sensitization mission continued in August with a **Campaign on Say No to Plastic** which saw the participation of students from all the classes in

collecting plastic bottles which were given to Bisleri – IPCA (Indian Pollution Control Association) for recycling. Furthermore, they also got an opportunity to learn more about plastic recycling in a **Seminar on Waste Management**, which was organized in September and conducted by Ms. Megha Dhuri. **The Cleanliness Drive at Versova Beach** earlier during that month gave them first-hand experience of witnessing the toxicity of plastic waste. In a similar drive on the **Collection of Chocolate and Biscuit Wrappers** in the previous month, they comprehended that recycling is the key to minimizing environmental pollution. These endeavours certainly enlightened them on the significance of a clean environment and their social responsibility towards it.

Field visits and Seminars serve well as catalysts in providing pragmatic and experiential education. Our nature club planned such interventions for students to offer them extensive avenues with access to deeper insights. During their **Field Visit to Mangroves at Lonkhandwala** in August, they learnt more about mangroves & how they were essential in preventing soil erosion. Their next **Field Visit to the Central Institute of Fisheries** in October offered them knowledge of

marine life. They also gained insights into the art of fishing, types of fish, fishing equipment, etc. A **Seminar on Ocean Jewels Under the Sea** held a month before, educated them on the importance of oceans and marine creatures and their place in the ecosystem. Later in November, they had a rendezvous with the BMC Coordinator - Mr. Arun Pawar in a **Seminar on the Segregation of Waste**, wherein he took them through the process of segregating the wet and dry waste into different bins for the purpose of recycling.

The ceremonious December witnessed the great – Majhi Mumbai, Swachh Mumbai Abhiyan marked with a series of events. It began with an oath-taking ceremony, followed by an awareness rally, thereafter, collecting wet & dry wastes from the local households and ridding the Sagar Kutir beach of all the trash under a cleanliness drive. In the concluding intervention of the year, students gained extensive knowledge of rainwater harvesting and drip irrigation through a **Documentary**.

All-in-all, Blossom Nature Club gave students an experiential voyage through nature's beauty, it's importance while creating awareness and a sense of responsibility in them towards mother nature. A successful year indeed!

SCIENCE EXHIBITION

Students and the teachers from secondary section participated in the K/P West ward level Science Exhibition at S.C.D.Barfiwala High School, Andheri (W). The main theme of the Exhibition was **“Technology and Toys”**

Junior Group (Mathematics For Us)
1st Prize (Selected for Zonal Level)

Lab Attendant
3rd Prize (Selected for Zonal Level)

Senior Group (Historical Development With Current Innovation) **2nd Prize**

Elocution Competition in the Junior Group
1st Prize

Science Teaching Aid (Undergraduate)
1st Prize (Selected for Zonal Level)

Elocution Competition in the Senior Group
2nd Consolation prize

The school received the 3rd Prize trophy for being the over all best school in the K/P west ward.

SAHASHALEYA UPAKRAM SAMITI

Teacher from the secondary section Ms. AALIYA KHAN participated in the Ward Level Mono Acting Competition organized by Education Department under the aegis of Sahashaleya Upakram at Maharashtra Vidyalaya and secured the Third Prize

Ms. Durva Mumbaikar from the secondary section participated in the Ward Level Mono Acting Competition at Hansraj Morarji Public High school organized by Education Department under the aegis of Sahashaleya Upakram and secured the 1st prize. She has been selected for the Zonal Level.

Students from the secondary section participated in the Folk Dance Contest (Junior Group) organized by Education Department under the aegis of Sahashaleya Upakram at S.C.D. Barfiwala High School and bagged the Third Prize.

**“Education is the key to unlocking the world,
a passport to freedom”**

These libretti of Oprah Winfrey accentuates the significance of the role of education and how higher education can empower youth to become the game-changer not only in their life but also for the world. Junior College serves as a stepping stone for students wherein they embrace the realm of education which is liberal and pragmatic in nature. As educationists, we are entrusted with a greater task at hand, shaping the youth of tomorrow into responsible citizens while enabling them to have minds of their own. At CWC Junior College, we planned the entire year considering an all-inclusive approach.

The exuberant voyage commenced in June and brought a perfect chance to rendezvous with our ancient practice of Yoga. The **International Yoga Day** celebration provided a dais for students to understand about energy, mind, body and soul connection. They also learnt several yogasanas from our yoga instructors – Mr. Deepak and Mrs.

Tejashri during the session. The following month – July decided to throw light on one of the biggest challenges faced by our country, which is population. With the purpose of creating awareness on the topic, a **Slogan Writing Contest** was organized on **World Population Day**. Students from Std. 12th showed their keen participation in the competition and through their innovative skills, delivered strong messages on the issue.

The arrival of August always leaves us drenched with the spirit of patriotism, no matter what. Marked as the month of our freedom and a reminiscence of our freedom fighters, we embrace, cherish and revere every moment of this with a grand celebration on **Independence Day** every year. This year, the occasion was graced by our esteemed chief guests and heads of the institution

JUNIOR COLLEGE

who inspired everyone with their prudence. Holding on to their wisdom, students went on to partake in the **Mask Making Competition** and exhibited some of their amazing creative skills. While creativity is the food for the mind, compassion is for the soul. Acknowledging the fact that our busy lives are driving us away from our connection with our elders and pressing on the need to cultivate that bond, CWC Junior College organized a program to celebrate **National Senior Citizen Day** in the 3rd week of the month. Several students eagerly participated in the program and made it a thrilling success.

September commanded a sense of reverence in the hearts of everyone – students and teachers alike. It

was the time for honoring the ones who shaped us into what we are – our teachers. The **Teachers' Day** celebrations witnessed the felicitation of our teachers for their meritorious work; they were left overwhelmed with the handmade greeting cards presented to them by our students. The tale of enthusiasm continued with a **Blog Writing Competition** organized on **International Literacy Day** later in the month. Students published their thoughts on 'Prominent Educationist Who Made a Difference in the Society' in quite an elaborate way. Winners were also awarded certificates later. While welcoming the

contesting spirit, they further participated in the **Beat Up With Rhythm Competition** – a series of performance arts contests, offering them the perfect opportunity to showcase their skills. Students from Std. 12th competed in Solo Dance, Folk Dance and Singing contests and with their performances, left everyone awestruck.

The October story unfolded with yet another

ingenious streak. **Just-A-Minute Competition** organized by the junior college encouraged our students to be inventive, creative and artistic – all at the same time. The competition offered a distinctive dais for students to be spontaneous and demonstrate their innate talent to the audience in the specified timeframe. The tremendous passion filled with excitement soaked the environment with more fun and frolic. It was then time for our students to vocalize their views. And the **Give Your Opinion** contest organized in November provided the perfect avenue for that. The competition saw the excellent participation of several students who keenly expressed their thoughts on given topics.

When December made its entry, CWC junior college was ready with a mission to drive sportsman spirit

Tributes Pour-in for Savitribai Phule on her birthday in January. The event was organized to share our great history about Savitribai Phule with our students and also to enhance communication skills and instil confidence in them. While the **Mono Acting Competition** held on this occasion allowed them to showcase their acting skills, the **Rangoli Competition** exhibited their artistic bent.

What a year – filled with such ardor and awe-inspiring liveliness, leading to great success in every field. Indeed, the one to be cherished!

in our students. And our students were already geared up for that. The celebration of the **Annual Sports Day** was a much-awaited event by all. The occasion was graced by several eminent guests who subsequently inaugurated the event, which was then followed by a series of sports performances by our students. It concluded with the prize distribution and felicitation ceremony. Later in the month, the **PowerPoint Presentation Competition** saw our students delivering outstanding presentations on the given topics in front of the judging panel who were truly impressed by their skills. The concluding engagement was a

Higher education is an economic necessity today. The post-pandemic world has brought technology to the forefront of every avenue of growth, be it education or business. The definition of corporate readiness has changed with that as well. Industry demands talent that is fostered with pragmatic education in line with the evolving times. Our role is crucial as the provider of formal education and as a catalyst for transforming students into employable and ingenious contributors to the nation's economic growth.

At Clara's College of Commerce, we have always embraced change head-on with a unified approach. Our cohesive strategies are driven by the purpose of education to build strong leaders of tomorrow. In pursuit of our mission, we integrated various learning avenues and methodologies for our graduates in making. Skill development is the prime focus of the planning. From keeping abreast of global developments in diverse arenas and nurturing innate talents to learning the latest market skills – every aspect is vigilantly incorporated as a part of our students' learning journey.

Our embedded industry associations enable us to foresee market demands. With our strong standing and alliances, we bring in industry experts from various domains to equip our students with industry knowledge and prepare them for their forthcoming careers. This year, we focused on strengthening their IT skills – from the use of basic online learning tools to the latest business applications as an integral part of their skill development program.

We are indeed gratified to achieve success in facilitating their success journey. However, success is a sport not played alone but is a product of team effort. Our dedicated and resourceful team of teachers and staff members are constantly guided by our leaders. We are grateful for all their contributions to every venture at every level. On the note of gratitude and commemoration of a successful year, let's keep rowing the boat and keep building a strong society with even stronger minds through education.

Thank you!

Dr. Madhukar R. Gitte
Principal

A college degree is not a sign that one is a finished product, but an indication a person is prepared for life.

Edward Malloy, in his words indeed shared his true view of how important degree education is and its transformational impact on the life of a student. Degree college education must go beyond the bounds of books and provide a dais to explore the possibilities of growth in both personal and professional space. At Clara's College, we integrate blended and experiential learning methodologies, offering an efficient avenue of holistic growth for our students.

Humility is a trait that inspires selfless service and unconditional love. Could there be any better way to begin our year with? With various bustles planned strategically for our degree students, we began our journey in June. Soon after, the month brought us a moment for jubilant celebration- **International Yoga Day**. The commemoration was embraced by the presence of our Chief Guest – Ms. Laxmi Mourya, Yoga Teacher from Kaya Yog Kendra, who

enlightened us on Stress Management and demonstrated several Pranayamas and Yogasanas. Followed July with a fervor to indulge in

environmental causes. Our students rolled up their sleeves to create awareness among people on the serious issue of marine pollution. In collaboration with Jay Foundation, they took up the **Beach Clean up Drive** and collected over 130 bags of garbage from the Versova beach. Later during the month, they also showed their active engagement in the **Tree Plantation Drive** and collectively planted more than 20 trees under the guidance of Mr. Mukesh Pawar, BMC officer.

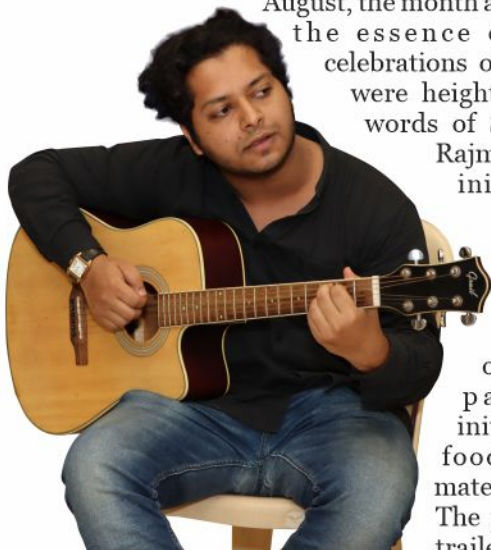

Every person has a unique talent – some of these talents are innate, and others are nurtured. Youth festivals encourage students to foster, exhibit and contest in their respective talent arenas. With motivation from their mentors and guidance from the college, our students decided to grab the opportunity in July and displayed enormous passion in participating in the **55th Inter-Collegiate/Institute/Department Youth Festival AY 2022 – 23** and many bagged prizes as well. A series of events including Western Group Song, Western Vocal Solo, Western Instrumental Solo, Indian Folk Group Dance, Solo Elocution in Hindi & English, Group Debate in Hindi & English, Story Writing Solo in Hindi, Marathi & English, One Act Play, Quiz, Skit, Mono-Acting, Poster Making, On the Spot Painting, Spot Photography, Rangoli,

Mehndi, etc. were organized which saw mind-blowing performances from our students.

While ardor of the Youth festival flowed over to August, the month also filled the milieu with the essence of patriotism. The celebrations of **Independence Day** were heightened by the inspiring words of Sir Ajay Kaul and Dr. Rajmane. With a distinctive initiative of celebrating **Independence Day with the Street Children** under the flagship of the NSS unit. Our students overwhelmingly participated in the initiative and distributed food packets and study materials to the street kids. The patriotic sentiment was trailed by a learning spree later during the month which emphasized the need to embrace Blended Learning. The IQAC, Clara's College of Education and CWC Law College came together and organized a **Faculty Development Program on Blended**

Learning – A Stepping Stone to Enhance Digital Learning. Led by Dr. Rajmane, the faculty members gained quite an insight into digital and non-digital learning materials and the importance of integrating the two for effective teaching. The month concluded with NSS students comprehending the mission and values of NSS program through an **NSS Orientation Program**. This was followed by a celebration of **NSS Foundation Day** in September wherein, students learnt about the history of NSS and the significance of the foundation day. Prior to this gala, they participated in the Swachh Bharat Abhiyaan and went on **Beach Clean Up Drive** at Versova Beach. This activity not only enriched their knowledge on the issue of plastic waste but also made them realize their accountability as a citizen to take care of their surroundings.

One who reads has the leverage of knowledge. Indeed, reading not only opens up your mind to a repertoire of knowledge but also increases your bandwidth for perspectives. Comprehending the significance and value of reading, **Vachan Prerna Din** was celebrated in the month of October. Students were inspired by a brief memoir narration of Dr. Abdul Kalam and later encouraged to read short stories in class. Soon, November knocked on

DEGREE COLLEGE B.Com, BMS, BAMMC & BAF

our doors to prepare our BMS students for the year. Our First Year BMS students went through a detailed **Orientation Program** before beginning their journey. The following month was the time for some deeper learning. Our degree students gathered ample information on Blood Donation, its significance and the process from Dr. Kishore Jha who delivered an **Expert Talk on the Awareness of Blood Donation**.

While teachers and mentors forerun the educational voyage at the college, parents play a crucial role in being an equal stakeholder in the

success. Understanding the extent of their role, the college organized a **Parents-Teachers Meet** in February which was conducted online through a zoom session. Principal Madhukar Gitte apprised students and parents of all the rules and regulations of the college during the session. Early during the month, students also participated in a **Military Training Session** by Indian Military Training Centre (Pune) which was held at the college auditorium. The year concluded in April with a philanthropic initiative- a **Medical Camp** for the underprivileged, organized by Ekata Manch.

Contesting, Winning, Contributing, Learning, the year brought joy and accolades in more than possible avenues for all – a year to be grateful for and to be cherished!

An American Historian Henry Adams once said – A teacher affects eternity, he can never tell where his influence stops. The truth in his words emphasizes much on the significant role a teacher plays in the lives of students. A teacher is not just an educator, but also a model who through his mere conduct influences his pupils' behaviours, a mentor who guides them through life skills, and an instructor who channelizes their energies on the path of positivity. As a facilitating avenue for the teachers of tomorrow, we shoulder the responsibility of a massive undertaking – to shape them to rise to that level and become influential educators.

The teaching profession has evolved over the decades. From theoretical education in the old days to experiential learning pedagogy to adopting online learning tools and far challenging engaging methodologies, it has been constantly changing and transforming the ways of teaching. Factoring these aspects into educating future teachers and facilitating them to invent and re-invent learning ways and aligning them with the principles of pedagogy is no less of a challenge.

At Clara's College of Education, we incorporated wide-ranging, all-inclusive learning methodologies. The confluence of thought-provoking conceptual learning and developing teaching and technical skills, to offering them real-time industry experience through internships in reputed schools, all these and many more interventions have facilitated the successful journey of our teachers in making. Alongside their skill development, we created mentorship and a holistic development program to help them identify and utilize their full potential and also develop their leadership skills.

Such an undertaking of shaping the educators of tomorrow requires thought leadership backed by a force of highly committed and inspired teachers. We are grateful to each member of our institution, from our management to teaching and non-teaching staff for their contribution to the success of our every endeavor.

To conclude, 'Let the light of education light up our minds & let our teachers of tomorrow bring brighten that light for us'.

Thank you
Principal
B.Ed. College

A teacher is a compass that activates the magnets of curiosity, knowledge and wisdom in pupils

Indeed! These words of Ever Garrison, an author & a teacher, delineates the very meaning of being a teacher whose role extends beyond the dominion of teaching space. With evolving times, the education system has undergone tremendous change, as has the role of a teacher. Besides instilling formal education in children, teachers play various other roles of mentors, guides and enablers who inspire young minds to tap into their potential and achieve success in their lives. Hence, these enablers in the making must be well-equipped for the role and the accountability they are about to take on. At Clara's College of Education, we understand the significance of such a humungous responsibility. Our entire curriculum and activities were planned to offer our future teachers a dais that empowers them to discover, explore, learn, implement and relearn.

Literature is a very significant part of our culture. It facilitates not only communication but also the expression of sentiments through verses and poetry. The observance of **Marathi Bhasha Divas** in the month of February provided a celebratory platform and also marked the commencement of the year for our B.Ed. students. They, along with their teachers alike partook in the celebrations with their enthusiastic performances in poem recitations, mono acting, group dance, etc. The grand event served the objective of promoting and

sustaining the richness of Marathi culture among the young generation. It was then time to learn to practice empathy and community work offers a

perfect avenue to do so. Our students took up the **Community Work Program**, which was organized in collaboration with Chesire Homes India, Vimaltidevi and Aaijidevi Old Age Home in the month of March. Besides undertaking the cleaning work at these old age homes, they showered their compassion on the senior citizens, aiding them with handicrafts, teaching them to sing and dance, etc. The entire program served as a great learning ground for our teachers-in-making. Later during the concluding week, they joined an **Online Seminar on Sustainable Development Goals 2030** which was organized by the Indian Association of Life

Skills Education in collaboration with the Lord's Universal College of Education. The seminar offered them insights into various types of energy and **Access to Reliable, Affordable and Clean Energy: Mini Grids and Clean Cooking**.

The advent of April invigorated the need to foster innate talents which is crucial for all-round development. The invigoration was pursued wholeheartedly by the department with a grand **Talent Show** which was organized for our B.Ed. students. Their keen interest and even keener participation with their mind-blowing performances in various art forms made the event a great success. Subsequently, they went on to

support the operations of **Medical Camp** which was organized in collaboration with Ekta Manch. From registering the volunteers to facilitating smooth operations of all the check-up booths, they contributed to the success of the camp with their

dedication and sincerity in every task they were assigned to. Soon, they welcomed May with their enthusiastic indulgence in **Drama in Education** - a novel method of teaching that empowers both students and teachers to explore the dais of learning in a theatrical way. Our esteemed guest - Mr. Sunil Prem Vyas shared about his journey in the industry and enlightened our students on integrating drama into the teaching process and its impact on the outcome. The edifying tale continued with our students' participation in a **6-Day Girl Empowerment Program** organized by

Bharatiya Jain Sanghathana. The program enabled them to understand different perspectives and also empowered them with the required skills to tackle life's challenges. The learning spree did not cease here. Our B. Ed. Students then decided to gain some practical experience in the teaching profession. The **Internship** organized in the month of July in collaboration with Barfivala High School, Anjuman Islam High School and Versova Welfare Association High School offered them an ideal avenue for that. Through various engagements, they gained pragmatic experience in building and employing experiential learning methods for better learning.

August came with a determination to stir up the milieu. A **Rally for Corona Warriors** organized by Ekta Manch saw an overwhelming participation of over 5000 people including our B.Ed. students. The event inspired our students to recognize the work of our frontline corona warriors in varied domains - medical, law and other public services. The rally paid their respects to the Corona warriors with banners, signs, placards, etc. Soon after, our students got engaged in an **Inter-Collegiate E-Competition** which was organized by the Royal Education Society. In coherence with the theme - Azadi ka Amrit Mohatsav, students uploaded their

videos for the same. The ardor of contesting was trailed by the sentiment of patriotism soon. The celebrations of **Independence Day** witnessed amazing oneness in the air. Students and teachers cherished the moments with inspiring speeches.

The Teachers' Month soon smiled and embraced lots of opportunities for learning. However, it decided to start with a celebration first. With a wide range of performances from students encompassing dance, singing, jokes and riddles, the **Teachers' Day Celebration** was indeed a big hit. The subsequent celebration was on **Azadi ka Amrit Mohatsav** and **Har Ghar Tiranga** which witnessed the participation of over 1000 people in a 6-kilometre-long rally. Post the success of the rally, our B.Ed. students grabbed the chance to up their skills through a Teacher Training Program which was organized by Nehru Science Centre. The program enabled them to learn about the identification of tools, teaching aids and also explore and learn about space. Upon completion of this program, there was yet another edifying opportunity waiting for them. In a **Webinar on Investor Awareness Program**, they learnt about the role of the Indian security market, its

structure, various investment opportunities and their benefits. The **Seminar on Correlation: Why & How?** concluded the month on quite an enlightening and exciting note. The seminar offered an interesting perspective on the correlation between the subjects and how the learning process can become economical and efficient with correlation.

Overall, the year was an endearing journey filled with loads of engaging interventions and learning throughout.

The best way to find yourself is to lose yourself in the service of others.

These words of Mahatma Gandhi delineate the core essence of community service. The National Service Scheme (NSS) provides an empirical platform for our young students to foster a sense of duty and values of community service in them which is deep-rooted in our hearts. Our NSS students were led through a series of community service programs spanned across the year.

Working within the confines of COVID-19, our driven education precursors devised an impeccable plan for NSS with a perfect blend of online & offline activities. The opening was made in June with the celebration of **International Yoga Day**. Even within the COVID bounds of maintaining distance, the online commemoration saw the enthusiastic participation of over 65 people, including students and faculty members who were guided by Mr. Ramesh Kumar Singh on various Yogasanas. This foremost successful event was followed by a **Tree Plantation Drive** in July which was focused on creating a sense of responsibility towards the environment in students. The NSS students from our college planted over 12 saplings in their locale and raised awareness about the environment.

Amidst the busy endeavours of community service, September brought an opportunity of celebrating the **NSS Foundation Day** – a reminder of the very significance of giving and serving society with selflessness. The celebrations ingrained a cheerful

chronicle with Mr. Shahid Ansari quite ardently inspiring our NSS students with the motto – 'Not Me, But You'. A motivational short film on Swachh Bharat Abhiyaan televised later presented itself as a stimulus of the spirit of service in our students. They later imbibed all the knowledge on the basics of First Aid for bleeding, wounds, snake bites, etc. in an **Online Webinar on First Aid Training** by Mr. Manjeet Singh. It was then time for our NSS students to get a deeper understanding of the ideologies of NSS. The **NSS Orientation Program** not only equipped them with information and objectives of NSS but also instilled a passion in them to serve the community. Later during the month, they also volunteered for the **COVID Vaccination Drive** wherein, they aided in data collection on COVID-19 vaccination status across 450 families. Further, they also joined hands

with the cultural students to volunteer for the free vaccination organized by the Municipal Corporation of Greater Mumbai (MCGM) & Ekta Manch in December at Clara's College of Commerce.

One of the major aspects of community service is also to understand India's monumental legacy and its associated significance. October offered just the chance to do so. The **Gandhi Jayanti Week** reminisced the inspiring work of the greatest freedom fighter and our father of the nation –

an **Online Leadership Training Program** organized by the NSS cell, University of Mumbai and S.S.T. College of Arts and Commerce, Ulhasnagar in the month of November.

The advent of December pulled our NSS students into **Environment Enrichment and Conservation Drive – Area Project 1**. With the purpose of creating awareness about the environment and working towards conserving nature, a series of programs were lined up for the upcoming quarter. It began with our volunteers

Mahatma Gandhi. Post paying a tribute through an **Online Bhajan Sandhya** on Mahatma Gandhi Jayanti, Former Prime Minister Lal Bahadur Shastri's birthday and World Non-Violence Day, NSS students took a virtual tour of Gandhi Ashram and also churned their wits answering questions in a quiz on Gandhi babu. Later they also partook in a similar contest on the 'India @75: Self-Reliance with Integrity' theme organized during **Vigilance Awareness Week: Vigilant India, Prosperous India**. Continuing on the path, they had an insightful encounter with Mr. Hemant Sawant, Additional Superintendent of Police – Anti-Corruption Bureau in an **Online Webinar on the Role of Youth in Stopping Corruption**. Our guest speaker shared his valuable experience with our students and inspired them to become the catalysts in preventing corruption in the country. Our NSS students also got a chance to learn effective leadership lessons in

putting their efforts to sensitize people about HIV/AIDS followed by a **Blood Donation Drive**, encouraging over 450 people to participate. January continued its fervor in the direction of the conservation drive and observed NSS volunteers engaging in **Shramdan** for the **Beautification of the Public Garden**. Further, they also spread **Awareness on Personal Hygiene** in the locales of Versova. Later, they were oriented by Shri Brijendra Chawdhary and Mr. Sachin Dedhai, the Founder and CEO of Skynet Secure Solution in online sessions **Awareness on 'Say No to Drugs, Yes to Life'** and **Cyber Security** respectively. The month also saw them paying their homage to the founder of Shiv Sena in an online program '**Smruti Gandh**' organized by the University of Mumbai on **Balasaheb Thackeray Jayanti**. The tribute was followed by another **Online Awareness Session on POCSO Act, 2012: A Promise to Protect Children** in the

SERVING THE PURPOSE OF LIFE - N.S.S.

month of February wherein, Advocate Parag Ukey – a Criminal Lawyer, Public Speaker and Social Activist shared his expert views on the subject.

March made its entry with a zeal to continue work on the environmental project. The month sent our NSS volunteers on the **Beach Clean Up Drive** at Versova Beach organized under the guidance of NSS cell Mumbai University and Don Bosco College Kurla in association with Shri Afroz Shah, Advocate Counsel, Bombay High Court, Champion Of the Earth, United Nation. The saga furthered with their participation in the **Swachh Bharat Abhiyaan** wherein, they ardently fulfilled their responsibilities in creating awareness among the people in the local area about cleanliness and waste management. However, before embarking on that mission, they prepared and distributed organic holi colours too. It was then time

for some crucial learnings. To serve this purpose, NSS and Women Development Cell (WDC) collaborated with the National Human Rights and Social Justice Commission and Film & Television Media Academy to organize a **National Webinar on Branding Yourself**. While our guest speaker

Mr. Vijay Shetty, Senior Advisor at the National Human Rights and Social Justice Commission emphasized the importance of education in India, Mr. Chetan Mathur, Course Director at Film & Television Media Academy spoke about the skills required to make a career in the field. Our other expert was a Certified Image Consultant – Ms. Rupali Gautam, who guided students on aspects of personal branding, resume writing and interview skills.

Another significant celebration was that of **International Women's Day** in early March - an event to not only celebrate the essence of womanhood but also to appreciate her work in different fields. The program aimed at inspiring gender equality today for a sustainable tomorrow. NSS students prepared and distributed greeting cards to the female staff and the female police inspectors on the occasion. They also participated in the **Nirbhaya Squad Awareness** program led by Professor Ruchita Pandhare. In the twilight week, our NSS students had a gala in a 7-day **University Level Special Camp at Badlapur**.

To summarize, despite the COVID-imposed restrictions, our NSS students left no stone untouched in their efforts and participation in community service – a triumphant year for sure.

SERVING THE PURPOSE OF LIFE - N.S.S.

YOUTH FESTIVAL

Youth Festival marks the celebratory season of the talent of our students. In the words of Maya Angelou – Every person is born with talent. And youth festival provides an ideal platform to express such innate and fostered skills. It encourages the youth to persevere through consistent practice, and cultivate their talent to become extraordinary performers, rejoice in every bit of their art form indulgence, to live up to the sportsman spirit of the festival while competing with their fellow mates from across the fraternity, inevitably enhancing their own persona. This year, the 55th Youth Festival organized by the University of Mumbai invigorated every heart with its rippling vigour rounded by a plethora of mind-blowing performances that set the stage on fire. The carnival pulled every category of talent to itself, be it literary, performance or artistic with impressive participation from the youth.

One of the art forms that connects instantly to the soul is the performing arts. It creates room for creative expression while offering a rejuvenating experience to the one who witnesses its beauty. That's the nature of such a creative art form. Students from our college grabbed every chance to indulge their audience and mesmerize them with

their performances in various contests including the **Western Group Song, Western Vocal Solo, Western Instrumental Solo and the Indian Group Folk Dance**. Many others unveiled their acting skills through **Marathi One Act Plays, Mono Acting, Skits and Mime** and left their audiences in awe. This creative gala also invited students to present their talent in the literary arena. Our students gave outstanding performances in the **Elocution competitions, Debates, Story Writing Competitions and Quizzes**.

Every art form offers an avenue for expression. And artistic form is no different. In fact, it's the one art that instigates the mind to visualize and create something novel. Several artistic contests were organized at the Youth Festival and each one of them observed the fervent participation of students across. While the **On the Spot Painting and Poster Making** contests offered students the to be creative with colors and their brush strokes, **Rangoli and Mehandi** competitions stirred up their hearts and wits to visualize and create beyond the bounds of the imagination. And some of them

YOUTH FESTIVAL

also leveraged their sporadic approach and passion in the **Spot Photography** contest. And last but not the least, **Jackpot** kept them churning their wits, but they came out with flying colors.

The carnival was coordinated by Dr. Rupesh Dhruvanshi and Mr. Shripad Joshi from our college. The festival indeed infused vivacity in the milieu and brought immense joy through various accolades.

MOMENT OF PRIDE : SPORTS EVENTS

- U-16 Football team won against Jamnabai Narsee School (Vile Parle) by 3 – 0. Match was organized by MSSA at St. Francis Ground (Borivali).
- U-16 Football team lost the match against Our Lady Of Salvation, Dadar by 1-0. The match was played at St. Francis Ground (Borivali). It was organized by MSSA.
- U-16 Football team drew the match against St. Joseph High School, Vikhroli by 1-1. The match was played at St. Francis Ground (Borivali). It was organized by MSSA.
- U-18 Football team won 1st round against JVM College Airoli by 9 – 1. Match was organized by Reliance Foundation Youth Sports.
- Under 17 football team won against Guru Hari Krishna School (Andheri) by 3-0. Match was organised by DSO at Sambhaji Maidan (Mulund).
- Under 17 football team won against ST. Xavier's High School (Andheri) by 3-0. Match was organised by DSO at Sambhaji Maidan (Mulund).
- U-14, 4 Students from secondary section participated in chess competition which had held at Uttar Bhartiya Sangh Jr. College Bandra (East). In which they cleared 1st and 2nd round. It was organized by DSO.

CHILDREN WELFARE CENTRE PAYS HOMAGE TO OUR COLLEAGUE

CHILDREN WELFARE CENTRE PAYS HOMAGE TO OUR COLLEAGUE WHO HAVE LEFT US FOR THEIR HEAVENLY ABODE

*“Walk this alley with grief in my heart
As I mourn the loss of the dear ones
My heart dives deeper into the lasting agony
As I take a stroll down the lane of their reminiscence”*

With our hearts sadden with tormenting anguish, we pay tribute to our dear ones. Their untimely departure has left us aghast, and the void that would never ever be filled, no matter what.

Our minds and hearts will always remember their love, reverence, contributions and the difference they made in our lives.

A frog decided to reach the top of a Tree

All frogs shouted,
"Its impossible, its impossible..."
Still the frog reached the Top...
How?
because
He was DEAF....
and he thought,,,
everyone was encouraging him
to reach the top....
"BE DEAF TO NEGATIVE THOUGHTS...
IF YOUR AMI IS TO REACH YOUR GOAL".

Behind the scenes of Music

It takes a whole lot of effort just to create a four minutes sound which is also know as "Music". From getting inspiration to write the lyrics to the countless hours spent at the studio is the most usual and typical journey of a producer. The first step is songwriting which is linked with inspiration, after this first step the next steps are arranging the most difficult and neglected part, tracking is the process of recording the various instruments that are used to perform a song, mixing is the process of combining all the instruments sound, mastering is the process of making song sound coherent. All of the above steps are time consuming and needs to be done very seriously otherwise the outcome won't be good. Behind the glam or fame of music there is a hardworking team present. Making music involves creative people who have a very artistic view and know how to play with words to keep their songwriting game on. Even after spending countless sleepless nights at the studio people often see the screen part but what about behind the scenes?

Simplicity is the key to happiness

- When asked ,What is the fundamental objective of life, the vast majority of people answer quickly and definitely that it is happiness. True and lasting happiness isn't the result of accumulating more. Happy people are aware that happiness comes from what's generated inside and not from outside.
- It's time to slow down those constant desires to buy things and start investing in yourself and your relationships. We chase after the materials by investing long hours in work juggling complicated schedules and lengthy to-do lists we get caught up in making a living, instead of making a life.
- How to find happiness, more money. A better job title. A bigger house. A nicer wardrobe we all want more. However learning to feel satisfied with what you already.
- Try it out for yourself, wake up grateful for all that you have, and resist the urge to buy useless things that you know you don't need.
- In the modern world, we are always told that we need this or, commercials on televisions are constantly selling things from dusk till dawn. There are advertisement on billboards as we drive to work and pop up ads on every website and social media platform that we visit. We are constantly bombarde but it's important to resist these templatons and take a step back.

Aryan Bhalsingh

A Nation suffered from loss

A Nation and the whole world awakens.

The country and the whole nation was happy. There was full of happiness among all Indians as well as of all the nations until and unless there's something sadness or seriousness in the particular home. The whole nation's economy as very good and all things were well developed.

Suddenly, in 2020 all the things slowly-slowly changed. A horrible and serious life threatening pandemic came across the world name 'corona', A disease which directly affected crores of life. A country has suffered from great loss due to the sudden and brutal death of many people, children as well as many living organisms.

Our Prime Minister, Shri Narendra Modi had announced lockdown in the whole country due to which people lost their jobs, many companies were closed due to the huge economic loss. Some companies provided laptops, computers and all necessary products to their clients as work from home criteria.

But... The real heroes of all the world was not only policemen, doctors, military men and the jawaans etc. Because they can't take leave for any reasons. They followed their duty to serve their best they can. All the maximum life they can and that too by treating 20 to 30 patients at a same time It was not easy to suffer now.

Things went critical day by day. There was no sun of hope in anyone's heart. All were sitting at home without going outside not even markets, banks, railways, roadways not even a single person was outside due to the shutting down of all shops, offices etc. things got worse ... if anybody was seen outside, they were beaten by the stick of the policemen, some doctors also lost their life by putting their maximum effort on their patients. There was nothing to eat for poor people. Some NGO's or municipal corporation of some areas provided packaged food like khichdi, banana etc to the poor people on the footpaths, roads as well as by going around the chawl areas.

Things are touched for all the world. Every country was trying their best to cope-up with all this disease. There's one sad thing to express is

the dead body of thousands of people were brutally thrown as the garbage in the dumping areas. The bodies were being dumped by performing their last rites with their particular customs and rituals.

This was very sad to even express or to think back what had happened. Our Prime Minister and other officials working hard to find and research in depth for this diseases which was very very life loosing. All had tired their best. Narendra Modiji announced to bang a steel plate as a ray of hope by lighting candle in their houses and all were performing continuous prayers through their heads. All Indians together joint their hands to come forward in support of all officials.

Thankfully, India found the vaccines i.e covaxin was launched as a compulsory vaccine for all Indians. And now, it's a 2023. The efforts and the continuous support of humanity came forward, a big word to say 'yes' the unity and the humanity of all people worked any 'yes, yes' we fought. Finally slowly-slowly all markets, officer began to open but only with precautions.

But,... but sorry to say that, whatever we had suffered in that 2 yrs was the 'karma' of our own crimes. That was the lesson for all the world for their own karma that nature was given to all. Over population, pollution, deforestation, urbanization etc. had lead to an extent and for that human was also suffered from less oxygen around the globe.

Nature doesn't ask us something. They consume maximum carbon-dioxide in exchange of oxygen for our human beings . At the end, we harmed the nature and the nature had hit us back!! Always care for nature in order to live a happy and peaceful life..

Balanced Diet

Every meal should be balanced with carbs, Proteins, fats etc. balanced diet is important for a person to be healthy. Now a days people eat lots of fast food, it is different to digest. Fast food is unhealthy and it can cause weight gain. For proper diet there should be proper sleep on time and should be eaten on time. Timings is very important for proper diet. Now days dieting is very common, people do dieting to stay fit. A proper meal plan helps to attain ideal body weight and reduce the risk of diseases like diabetes and other types of cancer, healthy diet is all about feeling great, having some energy, improving your health, and boosting your mood. Some of the most common health problems that arise from lack

of balanced diet are heart disease, cancer and diabetes. A proper diet pattern is complete combination of food ingredients and quantities required for breakfast, lunch, snack and dinner. Breakfast is most important for proper diet. With balanced diet, people should be active like gym, work or physical activity. In balanced diet people should eat food in smaller portions, take time to eat, also eat slowly to digest. For healthy diet people should eat lots of fruits and vegetables. It is good for health. So balanced and healthy diet prevent, one from diseases and from staying away from doctors. Eat healthy and stay healthy.

Information Technology

My keen interest has always been in technology. The development of technology and software throughout recent years, has contributed to the overall development of the world, economy and has just made everything very efficient and easy for all. And this has what caught my eye!

Despite certain disadvantages to portray technology is bad for health and environment. Today's world move around it. The inclination of hardware and software has boosted technology field in every aspect of life such as health, education, design, skill etc.

The major inventions of computers and mobile phones are booming its peak in the 21st century and has reflected the complexation of technologies onto effective and efficient outputs. Technology and science is also a big bomb shell. The resting and invention of various diagnosis for various health issues has really made life. Hospitals and clinics use machines and devices for treatment and checking.

Bryan Hoda
S.Y.B.Com

If we shift towards education field. The use of smart notes, smart screen, zoom meetings and more which increases the efficiency of students and draw their attention towards education.

So in short, Information Technology has contributed to the overall development in every aspect of life and has made life easy, efficient and fast moving. Information Technology has opened my eyes widely and made them realize that technology is where the FUTURE LIES UPON!

Society

The term society has been derived from the Latin word 'Socius' which mean a companion, association a community, nation or broad grouping of people. The elements that for or define a society is social organization customs, traditions, government economy, Arts and Religion.

Society nowadays isn't what it was a decade ago. Nowadays young people are exposed to drugs, violence, crimes and many unethical things. People do it prove others that they are 'cool'. Peer pressure is highly responsible for youth being misguided in the wrong path.

One of the strongest influences on the minds of people is media. People are getting constantly exposed to media which has a lot to show by means of vulgarity, dirty politics, provocative debates etc. These type of content leads to riots, bombing, religious difference being created. Politicians uses all these staff for their political advantages. People are taking advantage of other people, scamming, robbery have become common. Youngsters are crossing their minds. Stress has become as common as breathing. More and more people are getting self centered no one think what its like to be the other people. Even if someone was dying on the crosswalk. People will walk past him/her.

“The sources of our progress has become the source of our downfall”. Things are too good for us to change it all, yet too bad for us to leave anything as it is.

Fardeen Khan

Kashmir

Kashmir the heaven of the world. Kashmir is well known for production of saffron and apples. Kashmir is also known for its Beauty. Kashmir is the tourist attraction city. Kashmir is below to India and Pakistan. Kashmir looks more beautiful during winters. In Kashmir people use Kashmiri language to communicate with each other

Though Kashmir is a heaven but the policies and terrorism had made it hell. The people their need to save them from terrorist the army force war. Because of distribution of a city it is difficult for the normal community to survive. Day to day conflicts, terrorism, political conflicts, conflicts among people have made Kashmir a scary place. Kashmir use two currency the part which belongs to India use Indian currency and the part which belongs to Pakistan use Pakistani currency. Because of Kashmir the relation between Pakistan and India have become worst, each one wants the whole city under them. Due to this many war had taken place between Indian and Pakistani army. And this war results a horrible situation there. The city is not developed well the people are always in fear; there is terrible situation because of terrorist. There is no proper infrastructure no proper education system, no development. Each part of Kashmir is beautiful and have many painful story behind it. The disturbing feature of the conflict is the use of children for stone throwing and burning of schools by the militants. It is also been said Pakistani has tired to radicalise the people through social groups and the us of social medias. Kashmir has been seen as a continuous period of instability fastered by cross border intervention is in the form of militancy or political support to separatist group like the Hurriyat. The state has been affected by terrorist and violence, across the border for more than two and a half decades.

The tourists are also sacred to go and visit to this beautiful place due to inner conflicts. And this makes this state lack is development and getting progress. Even the normal people have right freedom and to live happily which is not been possible due to distribution war. Even the nature suffers a lot due to bomb blasts, fire.

“Save Kashmir, Save heaven”...

Ozone layer is recovering as damaging chemicals phased out

Scientist first identified a hole in the ozone layer, which helps filter out ultraviolet rays from the sun in 1985.

The earth's protective layer is on the track to recover within four decades as damaging airborne chemicals are phased out helping to shield humans from the sun ray's and limit global warming, an UN-backed scientific panel said. A rare international agreement was reached in 1987 to phase out gases, including chlorofluorocarbons (CFCs), which were used in products such as air conditioners, refrigerators and deodorants but were breaking down ozone in the upper atmosphere. A 2016 update to the so-called Montreal Protocol also phased out hydrofluorocarbons (HFCs), which do not directly deplete ozone but have a strong climate change effect. Since the chemicals were banned, there has been a "notable recovery" in the upper layer of the stratosphere, according to the report by the Scientific Assessment Panel to the Montreal Protocol, which is updated every four years. The HFC phase-out has also avoided in estimated 0.5C warming by 2100.

If current policies remain in place, the ozone layer is expected to recover to 1980 levels- before the appearance of the hole-by around 2066 over the Atlantic, by 2045 over the Antarctic, has been shrinking in area and depth since the year 2000, the report said. However, proposals to use geoengineering in the atmosphere to reduce global warming by reflecting more sunlight into space could have unintended consequences, including delaying ozone recovery, the report warns. Other factors, including rocket launches, more frequent intense wildfires exacerbated by climate change, could also delay the recovery, and more research is needed to understand how much, it added.

Is value education important in student's life

Educating the mind without educating the hearts, is no education at all

What is education?

Education means a lot in everyone's life as it facilitates our learning, knowledge and skills. Importance of education tells us about the value of education in student's life.

Moral values are the worthy ideals or principles that one follows to distinguish the right from the wrong. These ideals or virtues are considered worthy in building up the character of an individual.

Moral values refers to the good virtues such as honesty, integrity, truthfulness, compassion, helpfulness, love, respectfulness, hardwork, etc. reading moral stories is a good way to learn about moral values.

Students are the future of India. The future of a country depends upon the moral values imparted to them during their student's life. Moral lessons should be properly implemented among the students in schools and colleges.

The method of teaching moral values is universal. Parents and teachers are the source of the inspiration for students to teach the moral values.

E.g.: If 'teachers' and parents are honest and truthful then a child also imbibes some of the virtues in life.

What are the benefits by implementing moral values in a student's life?

1. When we love and respect each other, when we work with honesty and when we do only what is right. We obviously transform ourselves into better human being.
2. Moral values help in shaping the character and personality of an individual. Moral values also earn respect.
3. Moral values help us differentiate between good and bad, right and wrong etc.

Moral values give us happiness, confidence and immense satisfaction. These value shape us into gentle humans who are beautiful inside out!

*Keep your thoughts positive
Keep your words positive
Keep your behaviour positive
Keep your habits positive
Keep your values positive*

College Life

College Life Experience Is Truly One Of A Kind. The Most Common Memories People Have Of College Life Definetly Roaming Around With Friends. They Remember How The Group Of Friends Walked Around The Colleges In Style And Playing Silly Pranks On Each Other.

Moreover, People Always Look Back At The Time They Spent In The College Canteen. It Was Considered The Hub Of Every Student Where They Enjoyed Eating And Chatting Away With Their Friends. Another College Life Experience I Have Seen People Cherish The Most Is Have The Annual Fest. The Annual Fest Created So Much Exictement And Buzz Amongst The Students.

Most Students Are Curious To Learn Make Friends And Live An Independent Life When They Entered The College They Are Inspired By Bollywood Movies Like 3 Idiots And People Who Loves To Watch College Life And Experiences Turn Out To Be Sweetest Memories Of A Life.

Thank You!

Yasin Noorani

*There Is A Time And Place For Everything,
That Is College*

And A Famous Quotes Said By J.Robert

Never Give Up

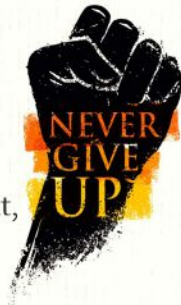

If I made a mistake,
Then I would have to retake,
And do it once again,
even feel the pain.

But there also lays a prize,
and that made me realize that,
even if I was to fail,
it would be a learning trail.

If I hope for medals and cups,
I can't just rely on luck,
I must do hard work,
to show the world my worth.
That's the essence of never giving up

Aliza Charaniya
VIII D

Good Things

I once heard an old man say,
Shaping vases out of clay
Into subtle form sublime
“ Listen, Son, Good Things take time”.

All of my life I've thought of this
When a task was lacking bliss,
When the work seemed awfully tough
And I thought I'd had enough
So I'd gave a little more

To what sometimes seemed a chore
And you know, without a doubt

Good things always come about

Jyoti Pal
VIII D

Memories

We may complain about our school work,
Perhaps we think our lessons hard.
We'd much prefer to be out playing,
And running in the big schoolyard.
But with the passing of the years
The dearest memories we'll call
Will be hours that we have spent
Within the old gray schoolhouse wall.

We may consider it a trial
To have to add and multiply,
And lessons in geography
Bring many a long-drawn anxious sigh,
But with the passing of the years
When time has cast its purple haze,
The memories that we will treasure
Will be of long-gone, old school days.

Arfa Shaikh
XI A

Animals

Wild and free, they roam the land,
Creatures great and small, so grand.
With fur or feathers, scales and skin,
A beauty and grace and, from within.

From lion's roar to bird's sweet call,
Their sounds so unique, standing tall.
The elephant's trump, whales deep sigh,
A sound, in the sky so high.

Some move with speed, some with grace,
Leaping and bounding, a wondrous chase.
The dear, the cheetah, a dance so grand,
Nature's rhythm, so easily planned.

Other's so gentle, slow and still,
With patience waiting, until they fill.
Their stomachs, with the food they seek,
A peaceful life, they wish to keep.

So let us cherish, these creatures bold,
For they are gifts, to have and hold.
In the forests, oceans and skies,
Their presence, a beauty in our eyes.

Kajita Sunam
F.Y.B.Com

The Last Day of School

The last day of school;
It wasn't that cool
A lot of tears
And memories of all the years

We looked back on each other
Loving everyone like a sister or brother
My friends, I will miss them all
I can't wait until school in the fall

Tears, laughs, and smiles
Looking at all the traveled miles
The time that it took to get here
Was not a long journey, I fear.

The phones ringing
And the bell dinging
The sounds we will miss
As we get our last kiss

School is out
And summer is here
But before we know it
School will be near

Mahenoor Garadwala
XI B

Discipline

A second missed is time lost,
Never be late at any cost.
Different duty, different time,
But all sing the same rhyme.

When I deeply go in search,
Find discipline the universe.
Well ordered by natural laws,
Governed, dynamic, without flaws.
All the plants molecules,
Elements, atoms, go by rules.

Divinely disciplined, so safe,
Go on without deforming shape.
Indisciplined a life, we live,
Disorder is all we give.

Fights, tensions, quarrels, hate,
Sick at heart, ill fated fate.
Law and order if we bring,
To life and be disciplined.
Safe, smooth, the life will run,
Deeds will be perfectly done.

Take your troubles

Take your troubles
Best you can..
Stand right up
And play the man.
Face'em just
As though you knew
You were coming
Safely through.
Blows will hurt
And bruise you. Maybe,
But don't whimper
Like a baby.
Stand right up
And be a man
Meet your troubles
Best you can

Priyanshi Pal

Quality Time

I want to walk in my golden years,
On the Cornish beachwear gold sand,
Where my footsteps are unhurried,
And my route is seldom planned.

I want to sit on the wooden benches,
Overlooking those dark blue bays,
I want to breath in this fresh salt air,
Until the ending of my days.

I don't want to become immortal;
Living for forever and a day,
I just want to savour life and this world,
No matter how long or short my stay.

I don't want my life extended for the sake of it,
With no reason or rhyme,
I just want to live in the here and the now,
And enjoy this- my quality time.

Nikitha Palakomma

Try, Try and Try

Once there were a boy
And everyone thought,
He was a useless guy.

He always failed,
In every exam,
Be it first second or third,
Or the last; final term.

Once he saw an ant,
Who was trying to climb a wall.
Fell down but tried again,
And then it did not fall.

This lit up his inner soul,
He worked harder to achieve his goals.
And one day he went up so high,
That he finally touched the sky!

If you too want achievements,
Never, ever cry.
Just set your goals and aims.
And try, try and try

Ritu Sahani
Teacher
Primary Section

Try Try and Again

"T" is a lesson you should heed,
If at first you don't succeed,
Try, try again;

Then your courage should appear,
For if you will persevere,
You will conquer, never fear
Try, try again;

Once or twice, though you should fail,
If you would at last prevail,
Try, try again

If you find your task is hard,
Time will bring you your reward,
Try, try again

All that other folks can do,
Why, with patience, should not you?
Only keep this rule in view:
Try, try again

Ritu Sahani
Teacher

College Life

Sweet were the days
Of the semester one.
Gossip, ragging, classes,
And so much fun.
Together we spent
those sleepless night
that drama before exams.
those endless fights.

Before we got used to it,
Time all but flew
The holidays were over
And it was semester two.
Attendance was a problem
But we learnt to co-operate
Proxies became a thing much to the profs hate.

Samiya Kherani

This

When did we change,
From throwing paper and planes,
And driving wooden trains,
To this.
And when did we grow,
From angels in the snow,
Lots of things we didn't know,
To this.
Can you put finger on the day,
When we never again did play,
Our childhood wasted away,
To this.
And when did we get taller,
Our dreams get smaller,
So now the only thing that's left in life,
Is this.

Syyed Susan Zehra

Dear stars that listen

Dear stars that listen
Have you ever wondered
Why we tell stories to you?
Why we write poems for you?
Have you ever wondered
Why we look up at the night sky
And yet drowned in all our dumb emotions?
Have you ever wondered why
The all time epic loves fall for you?
Why the insane people are counting you
I will tell you why;
In here in earth every soul is alone
Every soul suffers their own
The early morning sunshine
Never wakes them anymore
The chirping of birds never
Makes them happy again
For they are broken, they are sad
They are sad for no replies
So they come to you
Dear stars that listen
No time can heal a star
But it can soften it
With every fall in rise
With every fall you heal

Life

My life
There's some loss,
There's some gain,
Don't scribble your brain,
Let me Explain....
Life is full of worries
Life is full of joy,
Life is not a toy,
Life can never get destroyed
When I saw that life is full of worries,
It means might will fall
But still theis the moon,
And stars supporting you all.
And the night never remains too long.
The sun soon fills the sky with joy
Everyone to whom we belong,
Support us making us strong.
When we play with toys,
We never care for it.
But when our life is in danger
You have to admit
That life is so precious.

Sayyada Lakhani

Oh! So Grateful

A life with parents,
Is indeed a beautiful life;
They are God special presents,
And the moon of my eyes.

Thanks for doing what you do,
Even for the things I didn't told you to;
Sending a heartfelt appreciation your way,
May you always be happy,
That's what I pray.

There's only a gift that I can give,
It's all the love you've earned;
For love is what you always taught me,
And love is what I learned.

Sidra Kasmani

As I was small kid for you till yesterday,
Now it seems like I'm a grown-up;
You were the one with whom I used to play,
Memories with you'll will always stay.

This Girl

This girl in the dark
Has a beautiful face without a name
And a beautiful smile to hide the pain
This girl in the dark
Has cuts up her arm
Love nothing more then self harm
This girl in the dark
Doesn't know how much longer she can keep trying
Everyday she's slowly dying.

This girl in the dark
Sits all alone
Wants a place to truly call home
This girl in the dark
Wants nothing more than to be free
I know this because this girl is me.

Life

Life is like a running water,
Where we find lots of stones,
People stop and look at the water,
But, do we have time for that,
Life is all about short time,
And we have problems all the times.

Life has happiness, life has fear,
But we can do is fly like feather,
And we find soulmates for our lives.
For the rest of our lives,
And in life we sacrifice a lot,
In hope of betterment of our lives.

The Environment (A view from inside)

I am an Indian, so my planet earth is my environment, if i believe this then what about Asia or Milky Way Galaxy? Or if i say Asia is my environment then what about India? Or if i say India is my environment then what about Maharashtra? So on...

Environment is said to be the surrounding, but while saying this we generally take it from our circumference.

Actually environment is like concentric circles and we are at the centre.

We need to understand that if one is not environmental friendly then there must be problem whithin oneself.

We must focus to create awareness for oneself. We need to talk not with others but with our own inner self. While observing others we always miss observing self and that is the problem, instead of considering environment as something on circumference we must consider at the centre that is self.

Sustainable development is the ultimate goal for all those people who want to save environment. One way is to decrease Ecological Footprint. the Ecological Footprint adds up all resources for which a population, a person or a product competes. In a general sense ecological footprint of one's will be bad if he or she is choosing a private vehicle rather choosing public transport services for transportation. The more we use fossil fuels, create more pollution the worse will be our ecological footprint.

Save water - one of the most easily remembered environmental request by us. Here motivating factor is 'SAVING water' which generally fails in presence of ENOUGH water. Now if we make statement like 'There will be WATER CUT TOMORROW. Here motivating factor will be 'WATER CUT TOMORROW' so people will start saving water by today itself!!

Imperative exigency for triumph: LIFE SKILLS

Skills are an important tool to complete a task effectively, efficiently and on schedule as per the requirement. Good skills help in avoiding repetition ,frustration,lag and bad tag for any work. Skills become better with time and practice, it requires a good leadership quality, good management, zeal to perform, passion for acquiring, dedication and punctuality. Self responsibility and the right attitude create deliberate conscious reflecting skill that gives the edge over others and that leads to ultimate peace by curbing the conflict.

Skills can be generic in nature, like most essential skills, soft skills, key competencies or technical skills, transferable skills etc. Enterprise skills can also be considered as a type of skill requirement for the 21st century . Technical skills (Higson & Jane,2008) which can be acquired by formal training and give the keys to the doors of a job, but the other types of skills are soft skills which is essential to adapt,adjust and sustain in the world. Life skills are the amalgam of a collection of competencies required to execute any work par with excellence. It is the social connecting link ,persona building attributes . It acts as the catalyst which enhances the competency of an individual and the swift transfer of learning . Life skills are those fine elements without which the body consists of only the skeleton minus muscles and blood. That's why it is also termed as a life skill . Better life skills is like a proton which spreads positivity. Life skills generate the resilience and growth mindset among the person to have success. It is the path for leaders.

Our Society

Welcome to our Society
A place where
Eyes that “look” are common
But eyes that “observe” are some.

Where after trials and trials
And bribes in cash
Criminals are set free
Victim's heart in cash.

A place where
People candle march for a day
And then move on
After few words of wisdom that they say

Where toddlers play with phones
Than with building blocks
Where even an imaginary santa doesn't exist
Where has the innocence lost?

They talk and talk
Oh no! they blabber!
But show no actions
They're shallow.
They know very well
How to complain, how to sympathize
But they don't know
How to solve problems, how to empathize

They have so much knowledge
Let so little sense
Each one is alone
Even after thousands of social media friends

Our Society
Where most things remain unseen
And most facts come censored
Where criminals roam like free little birds.

Our society, A place of plastic smiles
And hatred hugs
A place where teens,
Loose their innocence to alcohol and drugs

Our society, a place of ironies
And political clowns
A place of funny miseries
And rich frowns
It's where you and I reside
It's where you and I decide
The rules to abide
Because end of the day

You and I
Make “Our Society”

Sugara

Pollution solution?

Observe the traffic and pollution,
Where is the solution?
I see in my own neighborhood this sight,
It's not a matter to be taken light.
I see the trees crying,
and the burnt fallen leaves dying.
I wish that it stops soon,
Otherwise,
we will have to take shelter on the moon.
So plant trees and take care of them,
To save our future from falling in vain.

Story of the innocent elephant

As a man was passing the elephants, he suddenly stopped, confused by the fact that these huge creatures were being held by only a small rope tied to their front leg. No chains, no cages. It was obvious that the elephants could, at any time break away from their bonds but for some reason, they did not.

He saw a trainer nearby and asked why these animals stood there and made no attempt to get away. "well" trainer said, "when they are very young and much smaller we use the same size rope to tie them and, at that age, it's enough to hold them. As they grow up, they are conditioned to believe they cannot break away. They believe the rope can still hold them, so they never try to break free".

The man was amazed. These animals could at any time break free from their bonds but because they believe they couldn't, they were stuck right where there were.

Moral – Never let one failure from the past hold you back in future

Women Empowerment

"Each time a woman stands up for herself without knowing it possibly, without claiming it she stands up for all WOMENS"-Maya Angelou.

The word "women empowerment" itself implies that the women are not powerful enough. They need to be empowered. They should be treated equally and should not be called inferior to the gender called Male. From the time of the birth till death, we suffer many obstacles in our life. Men always look down at us 'women can't do anything', they can't drive' and the most common old sayings 'women are meant to be looked after children and home'. Our positioned is always underestimated, even in today's world which is of modern thoughts there are some people who kill us before we are born. Fortunately as ultrasound, sex determination of foetus is illegal many girl children are saved. How do some men behave? Women are often subjected to rape, teasing, and murder even. Despite of being a brother and son to the women known as 'mother' and 'sister'.

Let us not wait for any organization to help us. We must concentrate on our strength and consolidate our own identity to establish our recognition in the society. The days are not far when we will reign supreme in the world. Even now there are so many women who are ahead of men in so many fields. We will also reject the child marriage, dowry, and pressure to bear the male child in future. Let us pray end wish that we succeed in our own drive for empowerment.

"Be a women who fixes another woman's crown without telling the world it was crooked" – Amy Morin

Epitome of Hospitality

Incarnation de l'hospitalité

Dans une grande âme tout est grand.

'In a great mind everything is great.'

Hospitality; what does one think when they come across the word 'hospitality'? A person showing generosity and friendly reception. It is a universal concept. Living in India, I have confronted hospitality every time a guest visited our house. My mother always welcomed them with kindness, snacks & a beautiful smile. Growing up I learned from my mother, what hospitality is; it is forgiving, treating others with kindness, helping one in need, being polite and so much more. Hospitality isn't supposed to be professional always, its a basic human gesture of acceptance and respect. Speaking of which, I am reminded of someone, someone that could be an epitome of what my definition of hospitality is. Teachers.

As I was brainstorming on what could be hospitality. I realised that as my mother showed courtesy and generosity, our teachers have been the greatest form of hospitality after our parents. To think about it they teach us the most. They stay patient while we are reckless toddlers. They give us their health, time, knowledge. Keep us grounded.

They sacrifice so much. As a student pursuing hospitality, I've encountered various struggles; which then helped me realise the importance of various personalities. And teachers are one of them. I have great respect for the people who work for this industry, in this world it takes a lot to be a human. And to all the hospitalists I'm proud of you.

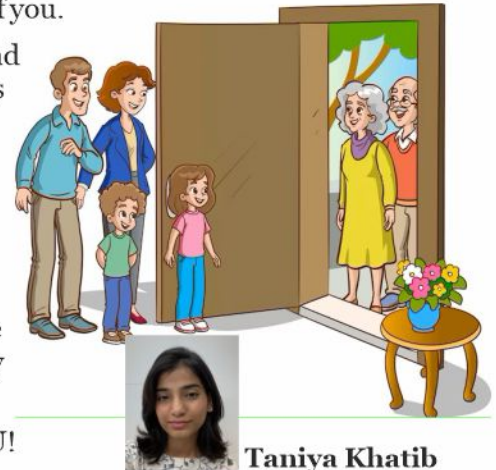

I would like to conclude my appreciation for teachers and hospitalists with a poem. The struggle a teacher has to face, is continuous throughout the day.

Yet then carry on at a steady pace, knowing that one day it will pay. And oh! The joy a teacher feels, when a student succeeds.

Something words cannot reveal; till then they say "success is high"

In my heart there'll always be a place, for those teachers who've helped me through Even when success wasn't mine in case, my courage was failing & I felt blue

You have always helped me out, And I'd like to say THANK YOU!

Taniya Khatib

Untold Chapter

Eyes full of tears, hearts full of fears, With early mornings and Sleepless nights,
We all left behind our peaceful years.

Every night we sleep with ample of thought, Convincing ourselves tomorrow will be easier,
Dear friend! The days don't get easier, it's just you who gets stronger.

Though our hearts are tired, But our freaking brains are not in mood of givin' up,
This generation is a lot confused and a bit weird .

These tough days shall too pass, As after heavy rains, occurs a rainbow,
Your efforts may soon show it's colors.

Just believe in yourself and the power beyond the universe,
Keep moving forward, rather than taking a reverse.

Idrisi Khushboo
F.Y.B.Ed.

6. Special emphasis is to be placed on Socially and Economically Disadvantaged Groups (SEDGs) to achieve the goal of equitable and inclusive education.
 7. It is recommended to set up a separate Gender Inclusion Fund and Special Education Zones for disadvantaged groups and regions.
 8. Merit based performance and a robust and transparent processes will be adopted for recruitment of teachers.
 9. The availability of all resources must get ensured through school complexes and clusters.
 10. Setting up of State School Standard Authority (SSSA).
 11. Exposure to be given to vocational education both in school and higher education system.
 12. Gross Enrolment Ratio (GER) to be increased in higher education to 50%. Expansion of open and distance learning is important to increase Gross Enrolment Ratio (GER).
 13. Holistic and multidisciplinary Education would be provided with multiple entry and exit options.
 14. National Testing Agency (NTA) has to offer Common Entrance Exam for admission to HEIs.
 15. It is proposed to establish Academic Bank of credit for students.
 16. Multidisciplinary Education and Research Universities (MERUs) will be set up.
 17. The National Research Foundation (NRF) is to be set up.
 18. Internationalization of Education is suggested.
 19. Professional Education will be an integral part of the higher education system. The aim of technical, health science, legal and agricultural universities or institutions is to become multi-disciplinary institutions.
 20. The duration of Teacher Education would be 4 years integrated stage-specific, and subject-specific Bachelor of Education.
 21. The policy aims to achieve 100% youth and adult literacy.
 22. Commercialization of higher education will be combat and stopped by introducing multiple mechanisms with checks and balances.
 23. All education institutions will have similar standards of audit and disclosure as a 'not for profit' entity.
 24. The Centre and States have to work together to enhance the public investment in education sector to reach 6% of GDP at the earliest from the present 3.2% of GDSP.
 25. Strengthening of the Central Advisory Board of Education to ensure coordination to bring overall focus on quality education.
 26. The Higher Education Commission of India (HECI) would be set up as a single overarching umbrella body for promotion of higher education sector excluding medical and legal education. The proposed independent bodies of HECI are: (1) The General Education Council (GEC) for standard setting, (2) The Higher Education Grants Council (HEGC) for funding of higher education, (3) The National Accreditation Council (NAC) for accreditation of HEIs, and, (4) The National Higher Education Regulatory Council (NHERC) for regulation of higher education. The policy of 'Light but Tight' regulation will be followed.
 27. Creation of National Educational Technology Forum (NETF) as an autonomous body to provide a platform for the free exchange of ideas on the use of technology to enhance planning, administration learning, assessment, and appropriate integration of technology into all levels of education.
-

28. Establishment of a National Mission for Mentoring (NMM) and the national mission on Foundational literacy and numeracy (NMFLN).

The NEP 2020 aims to increase the GER to 100% in pre-school to secondary level by 2030, and GER in higher education from 26.3% in 2018 to 50% by 2035.

The Central Sector Scheme Pandit Madan Mohan Malaviya National Mission on Teachers and Teaching (PMMMNMTT) was launched in 2014 to address comprehensively all issues related to teacher training, capacity building and professional development of teachers. About 95 centers were set up in the country through which teachers have been trained. After appraisal, the Standing Finance Committee has recommended for continuation of this scheme till 2025-26.

Conclusion :

The New Education policy 2020 is the first education policy to address many problems faced by the prevailing education system. The main aim of the policy is to promote universal and equitable access to the highest-quality education for all irrespective of social, economic and cultural backgrounds. The policy proposed major reforms in the existing school and higher education system to bring out the highest quality, equity, justice, and integrity in education. It has proposed complete revision and revamping of all aspects of the education system including its structure, regulation and governance.

In a nutshell, the NEP would make education more experiential, holistic, integrated, inquiry-driven, discovery-oriented, learner-centred, discussion-based, flexible, problem-solving, creative, innovative, skill and knowledge-based, and multidisciplinary.

IT's TIME

It's time to come out of the shell,
In which you have been protected so well, It's time to face the cruel world,
In each path you will come across twists and twirls. It's time to play your cards,
show your ace, which you were hiding for the right pace .
It's time to live for yourself,
Forget the world who behaves like deaf, It's time to make your dreams a reality,
Don't let anyone break your aims so brutally,
So that your happy moments turn into mortality.

Midnight Thought

Those were the days!!! Once we will say, Having a wide smile that's always gonna stay.
Remembering old memories which are gone far away, Now it's time to look forward, it's time to grow,
Wipe your tears and go with the flow, Don't let the storm blow,
the inspiration in you to be a pro.
Come out from your comfort zone, Learn to be as strong as stone,
With self-help, create your own throne.
Neither be grumpy on your fate, nor do any kind of self- debate,
You are old and no more eight,
And can't expect everything on a silver plate.

How to improve communication skills?

“Good communication is the bridge between CONFUSION and CLARITY .”

Do you know In India 86% people lack effective communication skills. It is essential for people to understand that in order to become a good communicator, fluency is a very important factor. Not only fluency but also the kinds of words that one uses, the way in which one conducts their tone are some of the most important things that contribute to make someone a very good speaker of English. Another key factor that is observed and is used to judge someone's speaking skills is their grammar. If someone has the correct idea of how to use the correct grammar in their sentences, then their speaking will have a much better impact than someone who does not have this. Therefore basic grammatical skills is something that is needed among every single person trying to speak well. I went from poor communicator to a good communicator just by making sure of few points. I couldn't believe how simple it was. I'll tell you the main points so that you don't have to waste a day .

1. Listening

Being a good listener is one of the best ways to be a good communicator. No one likes communicating with someone who only cares about putting in her two cents and does not take the time to listen to the other person. If you are a good listener, you can understand and respond well to the person.

2. Nonverbal Communication

Your body language, eye contact, hand gestures, and tone all color the message you are trying to convey. A relaxed, open stance (arms open, legs relaxed), and a friendly tone will make you appear approachable, and will encourage others to speak openly with you. Eye contact is also important; you have to look at the person in the eye to demonstrate that you are focused on the person and the conversation (however, be sure not to stare at the person, which can make him or her uncomfortable).

3. Clarity and Concision

Good communication means saying just enough – don't talk too much or too little. Try to convey your message in as few words as possible. Say what you want clearly and directly, whether you're speaking to someone in person, on the phone, or via email. If you ramble on, your listener will either tune you out or will be unsure of exactly what you want. Think about what you want to say before you say it; this will help you to avoid talking excessively and/or confusing your audience.

4. Open-Mindedness

A good communicator should enter any conversation with a flexible, open mind. Be open to listening to and understanding the other person's point of view, rather than simply getting your message across. By being willing to enter into a dialogue, even with people with whom you disagree, you will be able to have more honest, productive conversations.

5. Confidence

It is important to be confident in your interactions with others. Confidence shows your listeners that you believe in what you're saying and will follow through. Exuding confidence can be as simple as making eye contact or using a firm but friendly tone. Avoid making statements sound like questions. Of course, be careful not to sound arrogant or aggressive.

To conclude I feel the art of communication is the language of leadership, this article will help you all to polish your daily communication skills .

Unpredictable life

Life is unpredictable
We never know, the life we are living,
the plans we are making,
the dreams we are dreaming will be accomplished or it might not.
Life is unpredictable
You may have everything today, and might have nothing tomorrow
You may be alive today, and might die tomorrow
You may be young today, ,might old tomorrow
You may never get to have a chance again which you have today,
So live your life everyday as if its your last.
Cherish your dreams, friends, family, health.
End might be positive thought, no matter how hard the day have got!!

Woman Empowerment

I think this is the topic were every pen writes and starts with word "freedom"

The freedom to speak, and express views & thoughts are different for men & women in our society. A man can speak up his mind, and make his own decisions in life whereas a woman has a limitation on her imagination as well. Women are not even allowed to imagine or aim higher in life because their role is only limited to cooking, cleaning & taking care of family. In a world where a woman is dominated by society, it has become vital to empower women. What exactly is women's empowerment? When women are given authority to handle their personal, educational & professional life, given equality in society, the ability to raise their voice against violence is the definition of women empowerment. In a country where gods that are worshiped are female idols & in the same country one out of three women has experienced physical or sexual violence at least once in a lifetime.

Every human whether male or female should be treated equally at all levels. Whereas women are treated otherwise. Sometimes due to cultural norms, women are not empowered. Like in India, the right to education is just for the boy child, the power to make a decision at home is for male members & also the women that spend all her life taking care of family doesn't even get a thank you. Women will only be able to empower if they are not prohibited

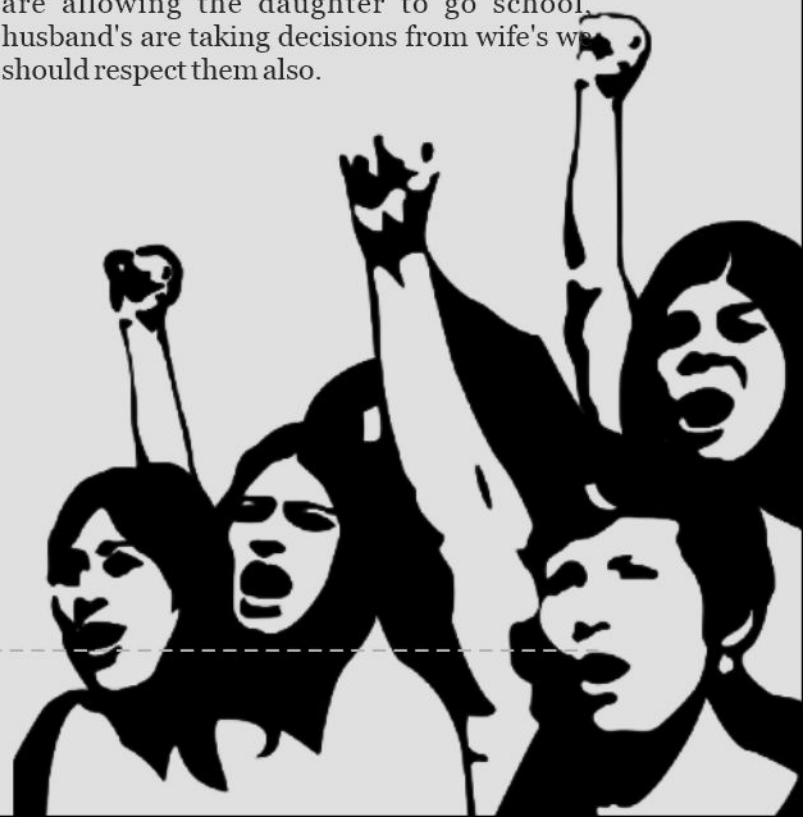

Idrisi Khushboo
F.Y.B.Ed.

**Woman
Empowerment**

to access the opportunities. Educational Opportunity is one of the basic rights of every woman & also helps in women's empowerment. If women are provided proper educational facilities & encouraged to study more, their level of confidence will increase & also be aware of various topics. We might be turning into a digital era but some parts of India still living in different centuries because child marriage, female foeticide practices, and violence against women still exist. The change should be brought, things won't change in a day but every single effort can improve the condition. But as an individual, we have some responsibilities toward the women of society. The first step towards women empowerment we can take is by respecting every woman around us & also respecting their thoughts, views & opinions. Appreciating the efforts are mothers put at home, involving women in decisions making & allowing them to be whoever they want to.

As I said earlier men are taking decisions in house woman are meant to be in kitchen, without education.

As we are saying men's suppressed woman before, we should also say now a days men's are allowing the daughter to go school, husband's are taking decisions from wife's we should respect them also.

‘सीधा सीधा जिंदगी में कुछ नहीं होता’।

मैं आपको एक कहानी बताती हूँ। मैं एक
बगीचे में गयी थी,
मैंने दूर से एक पेड़ पर सुंदर फल देखा,
फल को देखा मेरी आँखों ने,
लालच जागी मन में, ‘मन तो पेड़ के पास
जा नहीं सकता’ गये वहाँ मेरे पैर, पैर तो
फल तोड़ नहीं सकते, तो फल तोड़ा मेरे
हाथों ने, हाथ तो फल खा नहीं सकते, तो
फल खाया मेरे मुँह ने, मुँह तो फल रख
नहीं सकता, तो फल गया पैट में, ये सब
देखा माली ने, माली को आया गुस्सा, उसने
आ के इंडा मारा पीठ पर जबकी पीठ की
इसमें कोई गलती नहीं थी। आँसु आये
आँखों से, ‘क्योंकि फल को सबसे पहले
आँखों ने ही देखा था।
‘धरती गोल है’ इसलिए हम जो भी करते
हैं वह घुमा-फिरा कर हमारे पास वापस
आता है।

सच बात है —

बिटिया बड़ी हो गयी, एक रोज उसने बड़े सहज भाव से पिता से पुछा पापा, क्या मैंने आपको कभी रुलाया?

पिता ने कहा- 'हाँ'

उसने बड़े आश्चर्य से पुछा - 'कब'?

पिता ने बताया - उस समय तुम करीब एक साल कि थी, घुटनों पर सरकती थी। मैंने तुम्हारे सामने पैसे, पेन और खिलौना रख दिया मुझे ये जानना था की तुम तीनों में से किसे उठाती हो तुम्हारा चुनाव मुझे बताता की बड़ी होकर तुम किसे अधिक महत्व दोगी।

जैसे पैसे मतलब संपत्ती, पेन मतलब बुद्धि और खिलौना मतलब आनंद।

मैंने ये सब बहुत सहजता से लेकिन उत्सुकतावश किया था क्योंकि मुझे सिर्फ तुम्हारा चुनाव देखना था। तुम एक जगह स्थिर बैठी टुक्र टुक्र उन तीनों वस्तुओं को देख रही थी।

मैं तुम्हारे सामने इन वस्तुओं की दुसरी ओर खामोश बैठा बस तुम्हें ही देख रहा था।

तुम घुटनों और हाथों के बल सरकती आगे बढ़ी, मैं अपनी श्वास रोके तुम्हे ही देख रहा था और क्षण भर में ही तुमने तीनों वस्तुओं को आजु बाजु दिया सरका और उन्हें पार करती हुई आकर सीधे मेरी गोद में बैठ गयी।

मुझे ध्यान नहीं रहा की, उन तीनों वस्तुओं के अलावा तुम्हारा एक चुनाव मैं भी तो हो सकता था।

वो पहली और आखरी बार था बेटा जब तुमने मुझे रुलाया और बहुत रुलाया।

सबसे अनमोल घरोहर है

वाट पाहतोय सामाजिक क्रांतीची

भ्रष्टाचाराने बरबटलेला समाज
दोष देत बसलाय दुसऱ्याला;
मत देण्यासाठी मी शोधतोय
सच्चा त्या शास्त्रीला.

जागतिकीरणाचा आता
पसारा झालाय मोठा;
बापुंचा स्वदेशीचा चरखा
झालाय आता खोटा.

लॅन्ड रिफॉर्माचा वादळात
शेतकरी सोर विसकटले;
भाव विरहित विनोबा
उदास हसताना दिसले.

उपेक्षित ही जनता सारी
गटागटात विभागली गेली;
बाबासाहेबाच्या आंदोलनाला
आता नाही उरला वाली

स्वच्छता अभियानाच्या फाटोत
नेते अभिनेतं दिसले
पण गाडगे महाराजांचे झाडू
कोणी नव्हते आणले

निरुपद्रवी, सामान्य आशावादी
आणि हौशी मी प्रपंची
वाट पाहत बसलो आहे.
मोठ्या सामाजिक क्रांतीची

निसर्ग कविता

माझं सौंदर्य कधी पाहिलेच नसेल
माझा अनुभव कधी घेतलाच नसेल
माझ्या कुशीत कधी येऊन पहा
कधी मलाचे तुम्ही जवळून पहा
डोंगरांची वस्ती माझ्यात आहे
झाडे-वेलींची गर्दी माझ्यात आहे,
नद्या, नाले, ओढे, धुंद ती हवा
कधी माझ्या अंगणांत येऊन पहा
रिमझिम पावसात भिजून जा,
कधी गडद धुक्यात न्हाऊन जा
लांब पारंब्यावर झुलत रहा
कधी झऱ्यातून चालून पहा
सुंदरता अजूनही माझ्यात आहे
बस तुमच्या मदतीचा साथ पाहें
आजही देईन तीच गार हवा
किमान एक तरी झाड लावून पहा....
किमान एक तरी झाड लावून पहा....

जल ही जीवन है

पानी की महिमा धरती पर है, जिसने पहचानी।
उससे बढ़कर और नहीं हैं, इस दुनिया में ज्ञानी।।
बुरा -भला जो चाहे कह लो, सारी बात सहेगा।
जिसमें पानी भर जाता है, वह चुपचाप रहेगा।।

पानी पानी पानी
अमृतधारा सा पानी
बिन पानी सब सूना सूना
हर सुख का रस पानी
जल है जीवन का आधार
जल का न फेको बेकार
जल से ही सब जीवन पाते
जल बिन जीवित न रह पाते

मराठी भाषेचे संवर्धन

आपली मराठी भाषा खूप सुंदर भाषा आहे. भारतात मराठी भाषा २२ अधिकृत भाषापैकी तिसरी भाषा आहे जी सर्वात जास्त बोलली जाते.

मराठी भाषेचे महत्व खूप आहे. आपल्या महाराष्ट्राची राजभाषा आहे. दर वर्षी २७ फेब्रुवारी या दिवशी आपण मराठी दिवस उत्साहाने साजरे करतो. या दिवशी श्री. विष्णू वामन शिरवाडकर यांचा जन्म दिवस आहे. त्यांना आपण कुसुमाग्रज या साहित्य, कविता आपल्याला दिले आहे जे खूप सुंदर आहेत. त्यांचा विशाखा हा काव्य संग्रह प्रख्यात आहे. त्यांने मराठी भाषेचे संवर्धन करण्यासाठी खूप कार्य केले आहे.

आपल्या देशात जन्म घेणारे अनेक संतांनी मराठी भाषेची महिमा सांगितली आहे. उदाहरण संत नामदेव तसेच संत तुकाराम वगैरे ही आपली खूप आदरणीय माणसे आहेत. अजून ही त्यांनी सांगितलेल्या गोष्टी आपल्या मनात आहेत.

तसेच छत्रपती शिवाजी महाराजांनी मराठी भाषेचे रक्षण व संवर्धन केले.

पण आजच्या काळात आपली ही मायबोली कुठे तरी हरवत चालली आहे. भाषेची प्रतिष्ठा कुठेतरी कमी होताना दिसत आहे. म्हणून ही आपली जबाबदारी आहे की आपण मराठी भाषा पूर्णपणे लुप्त होण्या आधी तिचे संवर्धन व रक्षण केले पाहिजे

भलाभले आम्हास भाग्य बोलतो मराठी
लाभली खंरच धन्य ऐकतो ऐकतो मराठी !!

दोस्त हो तो ऐसा

दोस्त हो तो ऐसा

जैसे

जो हर गलत काम मे मारे चमाट

हमेशा बताए सही बात.....

जो तारीफ करने से ना हिचकिचाए

गलत होने पर गलतियाँ दिखाए।

करे ना कभी बुराई,

वो दोस्त होता है भाई।

जो हर पल हमारी मस्तिष्क करे

मुश्किल समय पर साथ खड़े।

कोई ना कर सके हमारा बागा बाल

जब हो यार हमारा ढाल।

आज तक सारे काम साथ किए,

दोस्त हमारा सदा जो जीए।

दोस्त हो तो ऐसा।

Bhavya Mota

पहल

स्वस्थ हो मस्त हौं मन में बसंत हो

बैर-भाव तजकर जीवन स्वतंत्र हो।

जीवन से मद-मोह-अंधकार दूर हो,

रूप-रंग, भेद-भाव मन से तजकर

सरिता समान जनकल्याण कर।

अनेकता में एकता यह विचार रखकर

चल पड़ों डगर पर, अंधकार चरिंकर।

सामने पहाड़ हो, मृत्यु का न भय रहे,

सिंहासन का न लोभ हो दृढ़ता बनी रहे।

कर्म में न कपट हो मन दृढ़ प्रतिज्ञ रहे।

सत्य का सत्य का मन में विचार कर,

भक्ति और शक्ति का जीवन में साथ कर।ण?

स्वच्छ और स्वस्थ समाज की कामनाकर,

ज्ञान-विज्ञान से नए हिंद के निर्माण की पहलकर।

माँ

माँ शब्द में है पुरा संसार
माँ है ममता का सागर,
माँ है बलिदान कि मुरत
माँ है खुशियाँ कि लगहर

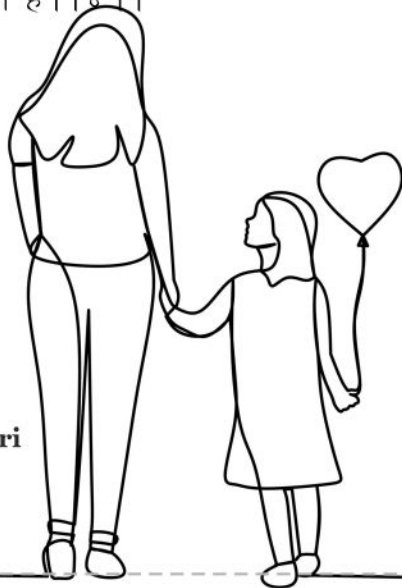

माँ के आंचल मे सुकून है,
माँ सुबह की पहली किरण है,
माँ देवता का दूसरा नाम है,
माँ है तो संसार है,
माँ है तो खुशी है,
माँ है तो सब है, ॥२॥

माँ है तो सुकून है,
माँ है तो हर समस्या का उपाय है,
माँ संसार के हर कनकन मे है,
माँ है तो परिवार मे संतुलन है,
माँ है तो परिवार मे संतुलन है,
माँ के बिन अधुरा है परिवार,
जिस के घर होती है माँ, ओह परिवार होता है
खुशहाल, ॥३॥

माँ
जीवन मे अनमोल रत्न है,
माँ शक्ती का प्रतीक है,
माँ बच्चों की लाडली है,
माँ घर के हर कोनो मे
बस्ती उमंग है ॥४॥

Rupali Kedari

हम उस देश के वासी है जहाँ सत्य है हमी

जीवन ज्ञान
कर्म हमारा धर्म एक हो
कर्म ही हमारी भाषा
जो सकर्म ही मृत्यू हमारे
जीवन की अभिलाषा ।

ये जवानी है चार दिन की
कल को बित जाएगी।
मत कर घंमड इस जवानी का
कल को तो मृत्यू आएगी
मृत्यू है सत्य इस जीवन का
इसे ना ठुकरा कर स्विकार मृत्यू को
सत्य को आगे बढ़ते जा
लेकर

सत्य ईश्वर है, सत्य है ज्ञान
सत्य हमारे इरादे हो
सत्य हो हमारे जीवन का अभिमान
हम उस देश के वासी है
जहाँ सत्य है हमारी शान

मैं बांझ नहीं हूँ

शाम हो गई आभी तो घुमने चलो न पापा।
चलते-चलते थक गई कंधे पे बिठा लो ना पापा।
अँधेरे से डर लगता सीने से लगा लो न पापा।
मम्मी तो सो गई आप ही थपकी देकर सुलाओ न पापा।
स्कूल तो पूरी हो गई, अब कॉलेज जाने दो न पापा।
पाल पोस कर बड़ा किया, अब जुदा तो मत करो न पापा
अब डोली में बिठा ही दिया तो आंसू तो मत बहाओ न पापा।
आपकी मुस्कुराहट अच्छी हैं।
एक बार मुस्कराओ न पापा
आपने मेरी हर बात मानी।
एक बात और मान जाओ
न पापा इस धरती पर बोझ नहीं में
दुनियाँ को समझाओ न पापा।

Competency-Based and commitment Oriented Teacher Education for Quality School Education

Teacher education is the heart of any educational system. If we want to improve the educational system, we will have to improve the teaching and Teacher Education System. During the last 3-4 decades, there had been a number of innovations in the field of teaching and Teacher Education. The quality and tone of the school and the institutions of teacher education are dependent to a large extent on the quality of teaching and teacher education, incorporating the innovations made in this field.

To improve the teacher education system in the country, the National Council for Teacher Education (NCTE), which sets norms and standards for quality teacher education and ensures planned and coordinated development of teacher education, is conducting a nationwide study on the demand and supply of teachers and teacher educators at the school level, for the years 2007-08 to 2016-17. Also, to upgrade the B.Ed. curriculum and other teacher-training programs, a revised National Curriculum Framework for Teacher Education (NCFTE) in harmonization with the NCF 2005 is being finalized by the NCTE.

The role of teacher education as a process of nation-building is universally recognized. But teacher education in India, because of its history and also due to various factors beyond its control, has by and large been confined to school education only. The educational expansion, universalization of elementary education, vocationalisation of secondary education, higher and professional education, and overall quality of education are major challenges before the country.

Evidently, the quality of education is a direct consequence and outcome of the quality of teachers and the teacher education system. The task of bringing qualitative change in the institutional efficacy of the teacher education system in itself is a huge and challenging one. The developments and changes over the last two decades require a fresh look at teacher education. The need for

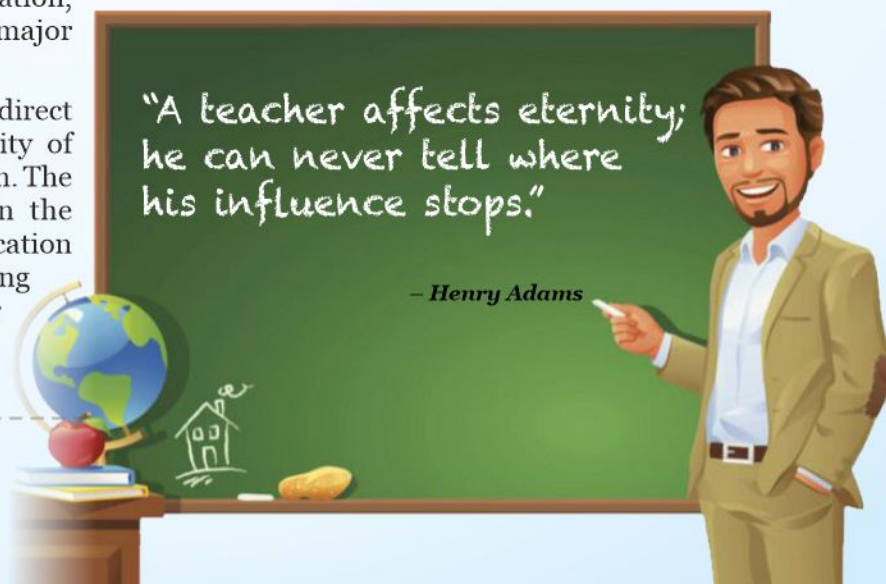

improved levels of educational participation for overall progress is well recognized.

An online teacher education portal with the Centre for Development of Advanced Computing (C-DAC) is also on the cards. "The portal would address all stakeholders involved in teacher education, for example, teachers, aspirants, and teacher-educators, among others.

The educational system in the country is rapidly undergoing transformation. New textbooks and textual material are being prepared; school curricula in all the states are being revised. The country is going to have living laboratories for every kind of child; gifted, talented, disadvantaged, etc. Teacher educators have to get involved in this program. The teacher educator will meet with a situation where there is a mixture of children coming from different socio-economic strata.

The role of teachers is now changing as counselors, tutors, mentors, facilitators, diagnosticians, discussion leaders, classroom managers, etc. NCTE has very recently (August 1998) published another 'framework', which perhaps may receive greater attention in the field.

But what really has caught the imagination of the field is an earlier NCTE publication (January 1998,2009), viz., "**competency Based and commitment Oriented Teacher Education for Quality School Education**".

assumption, "teachers are born, not made". Since teaching is considered an art and a science, the teacher has to acquire not only knowledge but also skills. Teachers serve education, which is an effective instrument of man making.

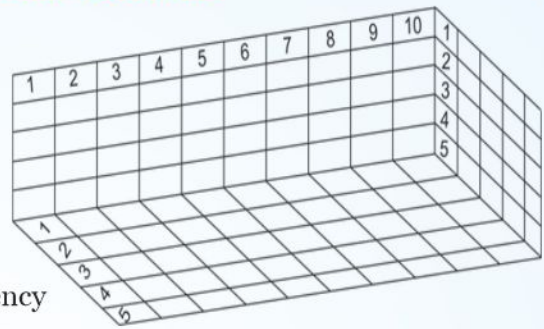

It is with the objectives of raising the professional status of teachers, developing

among them a greater commitment to society, their students, and their profession, increasing their professional competencies and performance skills, and empowering them to face new challenges that the National Council for Teacher Education has brought forth this document.

Teacher Education Integrated Approach

Competency area (10)

1. Referential Competency
2. Conceptual Competency
3. Curriculum Content Competency
4. Transferable Competency
5. Other Education Programme Competency
6. New Technology and Local Co-operation Competency
7. Instructional Material Preparation Competency
8. Management Competency
9. Parental Relationship and Co-operation competency
10. Connection with Community & Co-operation competency.

Commitment area (5)

1. Social Commitment
2. Professional Commitment
3. Commitment for learners
4. Quality leap
5. Commitment to basic human values

Work area

1. Teaching learning classroom work
2. Out school work programme
3. School level work
4. Community co-operation relation
5. Parent relation co-operation

Teacher commitment Areas, Competency Areas, and Work Areas Integration Structure

Now B.Ed. the course is two years course content-wise, academically, philosophically, and psychologically it's good but after four years of the degree, two years is a longer duration. Financially it is costly for the students as well as the teacher education institution. The student admission ratio became less many teacher education institutions are closed. Non-government-aided institutions are suffering from teacher ratio and finance management. There is no substantial research going on in improving the

education or evaluation of the existing programs As a result of all these, teacher education has become close to a farce in the country. The academic isolation of teacher educators coupled with their poor salary and working conditions itself reflects the neglect of the administration on teacher education. It should not be forgotten that the quality of school teacher depends on the training he/she receives from the training institution and allowing teacher education to rot adversely impacts the education sector.

Conclusion:

The teacher is the principal agency for implementing the educational program. The role of the teachers is and will be teaching and guiding their pupils; they have to promote research, experimentation, and innovation. Teachers are to play a pivotal role in extension and social service. They have to participate in the management of various services and activities that educational institutions undertake for implementing their program.

Hope that the Education Ministry will start focusing on the B.Ed. education, where the roots of the education system lie. Improving teacher education would positively impact the education sector as a whole. Thus, most trainees who enter these institutions come out with flying colours.
