The aim of the college is to continuously enhance the teaching methods in order to provide students with an opportunity for their all-round development. It also strives for excellence in academics and makes an effort to create an aura that induces passion for learning along with the inspiration for decisive thinking and assessment; and thereby helping them to become the best professionals in the chosen careers.

About Blood Bank:

MGBC is a Component Blood Bank with also facility of Aphaeresis and approved by FDA. Maharashtra govt.

We are city blood banks meant to arrange and provide blood to patients admitted in various hospitals in Mumbai. Hope you are aware that blood is mostly needed for serious conditions like leukemia, cancers, accident cases, victims of road and railways mishaps, various surgeries. anemia's thus being a very critical product in saving human lives.

In addition to this we also are running a *thalassemia day care center in our hospital wherein we have adopted kids suffering from thalassemia major, a medical condition in which a child is dependent on blood transfusion every 15 days, to survive.*

We are also supporting CTC (comprehensive thalassemiacenter) a first center in India to have taken up the cause of identifying, diagnosing giving entire blood support and bone marrow transplantation for thalassemia patient's.

We have been providing blood to these kids completely free of cost along with other medical services.

This entire medical activity that can be possible only by active participation from its citizens as every day more than 900 units of blood is required for the city. It really becomes very challenging for us to manage this dearth of blood.

The concept of committed and regular blood donation being inculcated at the college level will make them surely morally responsible towards the society.

We really appreciate and thank you for such a noble initiative and culture developed since last 15yrs of our association now. Our earlier MOU from 2008 to 2018 is nearly ending and hence we are hereby renewing it for further 10 yrs.

Objectives:

- 1) To make our city self-sufficient with adequate blood supply.
- 2) To create awareness in students so that in future the concept of regular and committed blood donation on a regular basis is inculcated in them.
- 3) Making students feel morally responsible towards their Social obligation and a form of giving back to the society.
- 4) Helping students learn the functioning of blood banks, it's utilization and distribution in our city.
- 5) In case of requirements of blood MGBC will help in getting it to the needy patients of Clara's College of Commerce and it's donors across Mumbai.
